At Least 120 Seats In State

PITTSBURGH, Nov. 9.—  
7,676 precincts out of 8,054  
in the state today gave:  
For U. S. Senator: Davis,  
2,015,219; Earle, 1,615,182.  
For governor: James, 1,  
962,957; Jones, 1,655,418.

Decisive Victory  
Harrisburg, Nov. 9.—Republicans  
captured their old political power in  
Pennsylvania today and with it the  
state government they lost to Gov.  
George H. Earle's "little New Deal"  
just four years ago.

There was a victory without com-  
promise, so decisive that in this  
morning's early hours both major  
Democratic candidates—Gov. George  
H. Earle for the U. S. senate and  
Charles Alvin Jones for governor—  
conceded defeat.

Today, with only several hundred  
of the state's 8054 precincts unac-  
counted for, Judge Arthur H. James,  
Republican, held a 307,539 vote ma-  
jority for the governorship and his  
running mate, Senator James J. Da-

### PA NEW OBSERVES

Pa. News hears that a new book  
was received at the library the  
other day entitled, "Man, the Mas-  
ter of Woman," and the librarian  
put it in the fiction department. The  
only other place that it might have  
been put would probably have been  
in the humor section.

Again New Castle leads the way.  
Beaver Falls barbers have before  
council a bill regulating sanitation  
and hours of closing, just like we  
have here. Nobody objects to a  
clean barber shop, but we've heard  
fellows kick when the door closed  
just as they reached the threshold  
of the shop.

"The I told you so" boys are hav-  
ing their tongues today. Most of  
them had their fingers crossed  
when they said it before election,  
but as usual, hindsight is the best.

In these days when streets are  
lined with automobiles and pedes-  
trians must be acrobats to escape  
being hit, it is almost unbelievable  
that it is only forty years since an  
auto on Washington street was a  
curiosity.

The next big fuss in the political  
line will be when candidates run  
for local offices. They won't need any  
lessons in mud-slinging if they have  
paid any attention to some of the  
men who have been running for our  
higher offices.

James Peebles of Scott township,  
who with G. A. Hamilton of Plain-  
grove received a Wanamaker medal  
for over fifty years faithful service  
as Sunday school teacher, is also en-  
titled to a medal from the Prohibi-  
tion party of Lawrence county. Mr.

### American People Tired Of Promises

Alf M. Landon Discusses Re-

(International News Service)  
TOPEKA, Kansas, Nov. 9.—"It's a  
demonstration of the good old  
American 'show me' spirit," Alf M.  
Landon declared happily today as  
he surveyed Republican election  
victories.

"In general, the American people  
are tired of six years of beautiful  
promises and are demanding re-  
sults," the 1936 Republican presi-  
dential candidate added.

"They particularly want an effi-  
cient and honest administration of  
the sacred responsibility of relief."  
The farmers were tired of an  
ever-changing farm program.

"Wherever there was a strong and  
aggressive Republican organization,  
the sweep was as strong as it was  
in Kansas."

"Thousands of Democrats appar-  
ently joined with Republicans in  
voicing their protests against pol-  
icies that were ruining their party  
and their country."

### Find Bodies Of Five In Family; Dead Of Poison

(BULLETIN)  
(International News Service)  
FORT WORTH, Tex., Nov. 9.—  
The bodies of Oliver W. Harper, a  
chemist, his wife and three children  
were found in their poison gas-filled  
home today. All had been dead for  
several hours when firemen, wearing  
gas masks, broke into the death  
dwelling.

Five large crocks containing an  
acid into which a chemical had been  
dropped to generate the deadly  
fumes, were found in various rooms  
of the house. There was a note on  
the bed occupied by Harper, which  
instructed that the crocks be em-  
ptied into a sewer opening and then  
water be poured in to flush away  
the acid.

The note also instructed those  
who entered the house not to touch  
the windows or woodwork with bare  
hands. Directions were given to call  
an undertaker to care for the bodies.

000 for the ticket, as opposed to  
the 6,000 majority for the  
Democratic ticket in 1936.  
About 36,000 voted in the  
election.

The majority came from the rural  
districts, the city of New Castle go-

due to the heavy Democratic vote  
in the south side districts. In the  
rural districts the Republican ticket  
breezed through in old time fash-

as seven and eight to one.

(International News Service)  
PITTSBURGH, Nov. 9.—"The  
people of Pennsylvania have spoken  
with unmistakable vigor that they  
will not stand for crime and cor-  
ruption," former Attorney General  
Charles J. Margiotti declared today  
in a formal statement.

"The election results are a drastic  
warning to political leaders of the  
past and future that we still live in  
a democracy where no individual or  
group can rise above the welfare of  
all the people."

### Pennsylvania House Of Representatives Will Be Controlled By G. O. P.

By RAYMOND WILCOVE  
(International News Service Staff  
Correspondent)

HARRISBURG, Nov. 9.—The Re-  
publican landslide in Pennsylvania  
today apparently gave the G. O. P.  
control of the state House, narrowed  
the Democratic majority in the  
Senate to one or two votes, and  
increased the Republican delega-  
tion in Congress by upwards of  
eight seats.

There still remained a possibility  
the Republicans might gain a few  
more seats in the Senate before the  
vote was entirely completed and  
thus control the entire legislature.  
Probably 110 Votes G. O. P.

Indications, with complete returns  
as yet unavailable, were that the  
Republicans would have perhaps 110  
votes in the House to 98 for the  
Democrats, a sharp reversal of the

NEW YORK, Nov. 9.—Governor  
Herbert H. Lehman today had been  
elected New York state's first four-  
year term chief executive, naming  
out Thomas E. Dewey, youthful  
racket buster, by approximately 75-  
000 votes after a spectacular cam-  
paign.

With only 24 of the state's 9,055  
districts missing, Lehman led Dewey  
by 76,071, or less than one and a  
half per cent of the 4,800,000 votes  
cast.

The governor prevailed upon to  
run for a fourth term when his de-  
sire was to go to the U. S. senate,  
was low man on the Democratic  
ticket. He ran more than 400,000  
behind Robert F. Wagner and James  
M. Mead, the senatorial candidates,  
and about 200,000 behind his youth-  
ful protégé, Lieutenant-Governor  
elect Charles Pollett.

Comptroller Morris S. Tomaine

### Gain Of 50 To 70 Seats In Congress Scored By Republican Candidates

By WILLIAM S. NEAL  
(International News Service Staff  
Correspondent)

NEW YORK, Nov. 9.—The Repub-  
lican party has gained 50 to 70 seats  
in the national house of representa-  
tives, it appeared today as election  
returns revealed Republican inroads  
on the new deal in many parts of  
the country.

Even though Republican leaders  
were jubilant over the results, the  
Democrats were assured of a com-  
fortable working majority in the  
"popular branch" of congress.

Republicans Happy  
Republican happiness sprang from  
the fact that the party had checked

a downhill slide which began when  
the Democrats captured the house  
in 1930 and had carried the party  
down almost to the vanishing point  
in influence.

On the basis of returns early to-  
day completion of the next house  
stood: Democrats, 216; Republicans,  
193; doubtful, 116.

Republican candidates were lead-  
ing in many of the districts in which  
only partial votes have been tabu-  
lated, while the Democrats have  
thus far failed to oust a single  
house Republican.

### Eight Senate Seats Taken From Democrats; Four More In Doubt

By ARTHUR HACHTEN  
(International News Service Staff  
Correspondent)

NEW YORK, Nov. 9.—Republi-  
cans gained eight seats in the  
United States senate and were given  
a fighting chance to pick up a  
maximum of four more as returns  
trickled in today from yesterday's  
nation-wide uprising against the  
"New Deal."

Only 35 of the senate's roster of  
96 seats were up for the people's  
vote in Tuesday's election. Oregon  
and South Dakota in addition each  
elected a Republican senator to  
serve only until the 75th congress  
convenes Jan. enough for them to  
win on and off the senate pannels.

While the Republican gains left  
them far inferior to the Democratic  
party numerically in the senate,  
with the aid of conservative Demo-  
crats they will be able to win many  
battles against the New Dealers.

Should the Republican gains be  
limited to eight seats, they would  
have 23 members compared with 69  
Democrats, two Farmer-Laborers,  
one Progressive and one Independ-  
ent Republican.

New Senators  
Here are the eight new Republi-  
can senators already considered  
"in" by word of the people.

OHIO—Robert A. Taft, of Cincin-  
nati, son of the former president  
and chief justice of the supreme  
court, Taft succeeds Senator Robert  
J. Bulkley.

### Downey Wins In California, But Plan Loses

Democrats Elect Governor For  
First Time In Forty-Four  
Years

(International News Service)  
SAN FRANCISCO, Nov. 9.—Sheridan  
Downey, an advocate of Cali-  
fornia's famous \$30 every Thursday  
"ham-and-eggs" pension plan, today  
was the choice of the golden state's  
electorate for the United States sen-  
ate.

A fellow Democrat, State Senator  
Gilbert Olson, who has sidestepped  
the pension scheme, was elected gov-  
ernor. The Democrats will move in  
to the governor's mansion in Sacra-  
mento for the first time in 44 years.  
Downey, 51, a former Republican  
rival, Philip Buerfeldt, a wanted  
gambler by a convincing margin and  
will replace another Democrat, Wil-  
liam G. McAdoo, who was defeated  
in the primary.

Olson administered a sound defeat  
to the Republican incumbent gov-  
ernor, Frank P. Merriam.  
The "ham-and-eggs" plan, pro-  
viding \$30 a week in state scrip for  
persons over 50 years of age, was  
buried by the voters in a strange  
situation that saw the president ap-  
prove Downey but denounce the  
pension, which was espoused by the  
new senator.

PITTSBURGH, Nov. 9.—Charles  
Alvin Jones, Democratic candidate  
for governor, lost his home district  
to his Republican opponent, Judge  
Arthur H. James, Republican, by  
about a three to one vote, final un-  
official returns showed today.  
The final vote was 632 for James  
and only 187 for Jones for the  
neighbors in fashionable suburban  
Edgeworth.

COLUMBUS, O., Nov. 9.—The  
plurality of John W. Bricker, Ri-  
over Charles Sawyer, (D) for  
governor stood at 116,958 today  
with only 14 of the state's 859  
precincts unreported. The 14  
were in Cuyahoga county.

Robert A. Taft (R) held a  
plurality of 167,620 over Robert  
J. Bulkley (D) for U. S. senator  
in returns from 855 precincts.  
The vote stood: Taft, 1,232,744;  
Bulkley, 1,055,124.

COLUMBUS, O., Nov. 9.—Over-  
whelmed in the earliest avalanche  
of Republican votes in Ohio in a  
decade, U. S. Sen. Robert J. Bul-  
keley and Charles Sawyer, Democrats,  
today conceded the election of their  
G. O. P. opponents, Robert A. Taft  
and John W. Bricker.

Indications were that the entire  
Republican state ticket was swept  
into office with Taft and Bricker.

Bricker's plurality over Sawyer  
stood at 128,851 in returns from 737  
of Ohio's 859 precincts. The suc-  
cessful Republican candidate polled  
1,065,696 votes in those precincts as  
against 934,845 for Sawyer.

### Earle And Wife To Take Cruise

Blames Defeat Tuesday On  
"Nation-Wide Trend To

(International News Service)  
PHILADELPHIA, Nov. 9.—Governor  
George H. Earle today blamed  
his defeat by Senator James J. Da-  
vis for the U. S. senatorship from  
Pennsylvania.

Resting with Mrs. Earle at a mid-  
city hotel where they received elec-  
tion returns, the governor com-  
mented: "I played polo for a num-  
ber of years and so I have been lick-  
ed before—plenty."

Remembering that his defeat "prob-  
ably will add 10 years to my life,"  
the chief executive said he had  
made no future plans "beyond a  
long vacation." He and Mrs. Earle  
will embark soon on a cruise expect-  
ed to last "several months," the gov-  
ernor disclosed.

"It's all right, honey," consoled  
Mrs. Earle, "you put up a fine  
fight."

### Nation Surprised By Wide Scope Of Victory Of G. O. P.

New Deal Staggers From  
Impact In Series Of Re-

Voting

LOSE TEN OR DOZEN  
SEATS IN SENATE

Republicans Elect Gover-  
nors In Thirteen Or More  
States—Gain Many  
Congressmen

By GEORGE R. HOLMES  
(International News Service Staff  
Correspondent)

NEW YORK, Nov. 9.—  
The new deal staggered to-  
day under the impact of a  
smashing series of Republi-  
can gains, nation-wide in  
scope, which unexpectedly  
and overnight has trans-  
formed the G. O. P. from a  
pitiful minority into a formi-  
dable opposition.

The Democrats, it is true, retain  
control of both branches of congress,  
but by greatly reduced majorities,  
and they still have a majority of the  
state governments. In that sense,  
and in that sense only, they may be  
said to have "won" the off-year  
election.

In every other sense, they lost it.

Democrats Lose Heavily  
They lost ten or a dozen seats in  
the senate, sixty to seventy seats in  
the house, and a dozen governor-  
ships. It will take the final and of-  
ficial tabulations to measure accu-  
rately the extent of the Democratic  
losses.

The Democrats were as dazed to-  
day over the results, as the Republi-  
cans were dazed in 1932, '34 and  
'36, when successive Democratic vic-  
tories all but obliterated them as a  
major political party.

The certain result will be to suf-  
fer congressional opposition to the  
new deal in the 75th congress, which  
meets in January, and to stimulate  
and energize the Republicans to or-  
ganize for 1940.

From coast to coast the new deal-  
ers took a drubbing.

On the basis of late returns this  
morning, Democratic senators were  
unseated in Kansas, New Hamp-  
shire, Connecticut, Wisconsin, New  
Jersey, South Dakota, Ohio, and

### State May Have 17 Republicans In Next Congress

(International News Service)  
HARRISBURG, Nov. 9.—Pennsyl-  
vania's delegation to the 76th ses-  
sion of congress today showed sub-  
stantial gains in the Republican  
ranks at the cost of the Keystone  
state's "new deal" representatives.

Contrasted with but seven mem-  
bers in the present congress, there  
will be no less than 17 Republicans  
from the state in the next session.  
The number may reach 19 on the  
basis of incomplete and unofficial  
returns from four districts voting in  
Tuesday's election.

### Arthur Mometer

Well the election excitement is  
over and the politicians are still  
the votes are all in and counted,  
and the people have shown us their  
will. And some there are who are  
happy and some who are rather  
blue, for the total shows and it's  
probably right, that a few of them  
didn't get through. But the score  
is in and no matter whether you lost  
or you won, for the fellow who did  
there's a job ahead and the job has  
only begun. So another election  
is over, and the people have had  
their way, that is the ones who got  
out to vote, its 48 today.

### ST. ANDREW'S JUNIOR GUILD PARTY ENJOYED

Members of the Junior Guild of St. Andrew's Episcopal church, enjoyed the hospitality extended in the home of Mrs. William Wignall, Maryland avenue, on Monday evening, when they were entertained at a beautifully appointed chicken dinner.

A bouquet of chrysanthemums of the same hues, formed the centerpiece, and guarding either side were double crystal candle holders, holding yellow lighted tapers. Individual place cards and favors marked each place.

The new officers for 1938-39 are as follows: president, Mrs. William Wignall; vice-president, Mrs. William Mayer; secretary and treasurer, Miss Ann Hiltchen. Extensive plans are being made for their annual dinner affair, in addition to other outside work, which is proving of interest to each member.

## PARTNERS IN INDUSTRY JOIN HANDS

WHEN representatives of railroad managements and railroad employees met together this week in Washington they exemplified a policy which members of other industries might follow to their own advantage. It expressed a recognition of their equal stake in the prosperity of their common industry.

Their aim is to devise a legislative program for the next Congress that will help to rescue the railroads from their present plight. It is just as important to the workers as to the managements that this be accomplished.

Removal of some of the handicaps that now cripple the carriers will not alone suffice to put them on their feet. Permanent industrial recovery will be needed to fill the long lines of empty freight cars. But the railroads must be put in a position to reap full advantages from increasing business. This is where Congress can help.

At the last session President Roosevelt was coldly apathetic toward the railroads' extremity. He could have made remedial legislation a "must" on his program. But not until after Congress adjourned did he appear to realize the seriousness of the situation.

This mistake must not be repeated. No more important measure than railroad rehabilitation will press for attention when Congress reassembles. A plan designed and indorsed by the men who run the railroads and not by impractical political theorists can not be lightly dismissed. Any excuse by Congress for further delay will have been effectually removed. There is every prospect that during the next few weeks such a plan will be forthcoming.

## REPORTS FROM RUSSIA

One of the reasons why the Utopian delusion is still nurtured in the minds of the gullible is that so little is known about actual conditions within the Union of Soviet Republics. For reasons which are practical and judicious, concerned as they are with considerations of self-preservation, the comrades in high places are silent and secretive with respect to the progress of the great experiment.

Visitors to Russia are permitted to see little, and to hear even less. An iron censorship governs every word that goes beyond the Soviet frontiers. The world outside is permitted to learn little concerning the functioning of Stalin's Government or the condition of the great masses of Russian people. In consequence, it is still possible to find a little fertile soil for the delusion that communism offers a panacea for the world's economic ills.

Enlightenment is provided in a series of articles in the St. Louis Post-Dispatch by R. O. G. Uehi, who has lived for thirty years in Russia and the neighboring country of Latvia, and in the New York Times by Harold Denning, Moscow correspondent.

Mr. Uehi finds that the Russian people, after twenty years of communism, are getting less in real wages than they were in 1914, that Russian economy, directed and driven from the top, is paralyzed by bureaucratic red tape. The relentless drive for individual production has produced a deterioration of equipment and in the quality of the finished product. In the production of wheat, mechanized agriculture has failed completely.

Mr. Denning writes of the long lines of men and women waiting in the hope of being able to buy a meager supply of vegetables at an exorbitant price. Often the food cannot be bought at any price.

If American workers were aware of this situation, communism would make little progress in the United States even though every street corner throughout the land were manned by a highly articulate Red on a soap box.

## POLITICS BY RADIO

The power of radio in politics, while great, perhaps is not nearly so far-reaching as some people think. There are many checks and safeguards. One is that people just stop listening to a political speech when they lose interest in it.

A radio critic cites statistics in his newspaper column which show how this works. On a recent Tuesday evening, he says, N. B. C. received 920 telephone calls from listeners protesting against interruption of the "Information, Please" broadcast for a speech by Thomas Dewey, candidate for governor of New York. That same day, during another speech, Mr. Dewey himself was accidentally cut off, and the station received only eight telephone calls from disappointed listeners.

The story proves nothing against Mr. Dewey. He is rated as a good speaker. It simply illustrates the fact that in this free country people listen to the programs they want to hear, whether the programs be political speeches or highbrow quizzes or ball games or grand opera.

It is different in Germany and Russia, where government broadcasts are "required hearing" and penalties are imposed for listening to forbidden foreign broadcasts.

## A DRAMA OF MODERN INVENTION

Still another drama in which the airplane and the radio had a vital part has been written outside of books and staged without footlights. A Chicago youth left home last February, and when last heard of was somewhere in the wilds of Alaska, hunting caribou. Meanwhile, his elderly mother became gravely ill and begged to see her son before she died.

A quarter-century ago naught could have been done. But today drama is swift, efficient, technical, and the machines man has made work wonders amazing even to their creators. Scores of short-wave amateur radio "hams" tried for days to locate the youth through their fellows in the Far North. Finally, a station out on the Aleutian Peninsula heard the plea and got word to the young man.

Even then his problem was not solved. Without funds, he sought to rush back to Chicago to see his mother before she died. The Coast Guard offered aid; an airline co-operated; result, young Henry Walther and his mother were reunited.

Record another saga of the Northland which Jack London had to miss: chalk up a gripping story of a lost son found in 1938 style; log another achievement for the youngsters who talk with each other night after night in a world-wide network of wireless waves, enjoying the friendship of others they can not see, and never knowing when their hobby will relieve distress.

## The Parent Problem

By Garry C. Myers, Ph. D.

**INHERITING MENTAL TRAITS**  
Many a mother worries a great deal before her baby is born regarding the physical and mental traits which this baby might inherit. She thinks about the various relatives and dears to think her child might appear with some of their traits or have some of them crop out as he grows older.

Many parents seem to think of heredity as a kind of magical force which causes their children to act in a certain way. They do their best to bring up their child well and if he proves unruly they are inclined to believe he has inherited his stubbornness or ill temper.

How frequently a mother has written me of an unmanageable child. "He inherited it from his father," imitation of that father and development out of a vexing environment created by the parent-parent tension or parent-child tension are possibilities often overlooked. Certainly much of what parents believe their children inherit has just been learned.

**Physical Organism**  
What then does the baby inherit? He unquestionably inherits a physical organism. This includes such items as large or small bones, skin color, eye color, hair color, facial features, sense organs, nervous system, muscles, glands and the like. Does the baby inherit mental characteristics?

One of America's leading biologists, Dr. H. S. Jennings, of Johns Hopkins University, says that we inherit a certain kind of physical material which will produce a certain mental track, provided certain conditions are present. If those conditions are not present, of course the mental characteristics will not develop.

**Learning Mechanism**  
Parents may transmit by physical inheritance a good learning mechanism in terms of brain and the rest of a nervous system, and whatever other portion of the body may be essential for learning. Now, if the right conditions can never be favorable environment, the child should receive a good mind. All education is just a matter of environment, I guess.

The inheritance of our children or any others to be born to the same parents is entirely beyond our control. Our opportunity is to do our utmost at helping them best develop the equipment they now have. We might be interested in helping to control to some degree the inheritance of our grandchildren. But at least, half of that field lies entirely beyond anything we can do beneficently.

## The World AND THE Mud Puddles

## ONE STOREKEEPER.

There is an editorial writer on the Wall Street Journal who should be classed with the New York Sun reporter, to whom Charles A. Dana entrusted the privilege of answering Virginia O'Hanlon's question: "Is there a Santa Claus?" He writes "Speaking of Human Relations," the following in the October 27th issue of the "Journal":

"Joe Hess, storekeeper of Danville, Indiana, at the age of sixty-seven found himself financially at the end of the road. For a generation he had been serving the necessities of his customers, his friends and neighbors throughout the county, with more than merchandise. He had over the years extended credit to hundreds of them, perhaps not always wisely but always sensitive to the lights and shadows of ordinary human experience."

"On the day when Joe went to his store to take a last and solitary look around on the scene of his life's labors, he found the place filled with men and women of his long acquaintance. They had provided the store and Joe with a new stock-in-trade and proceeded to hold an all-day special sale. By evening there was \$1,000 in the till and Joe was able only to say that he proposed to keep the store open as long as he lived."

"This week Joe made his first trip to New York to take a small but eloquently speaking part in a radio program known as 'We, the People.' His selection for this appearance was in recognition of those guidelines which had brought forth such a neighborhood outpouring of support. But to Joe it was chiefly an opportunity to express again gratitude to the friends who had given that support."

"Joe's store is neither so large nor so prosperous as in the days of his prime; he has been ill and has suffered the irreparable loss of his wife and business associate. But when he called on us yesterday, he was still the same Joe Hess to whom we delivered newspapers as a boy, supremely happy that the opportunity was now open for him to continue in the business to which he has devoted his life."

Of course, not all cases of financial embarrassment for a small storekeeper turn out as this one did. The reason is, perhaps, that not every owner of such a store is a Joe Hess, with a deeper understanding of "public relations" in business than the professional advisers can impart."

Hitler Emissary Due For Shock  
Will Find Secretary Hull Cold  
Will Discuss Trade Agreements

By CHARLES P. STEWART  
Central Press Columnist

WASHINGTON, D. C., Nov. 9.—Herr Hitler's economics minister, Walther Funk, who is scheduled to visit the United States soon to try for a German-American trade agreement, may as well save time and standstill fare by not coming. Secretary of State Hull, with whom he will have to negotiate, is all in favor of international trade pacts, but not the kind of pacts that Hitler and Funk favor. He made this very clear in his speech before the National Foreign Trade Convention in New York a few evenings ago. The Nazi notion of a trade treaty between two countries is a dicker by which they make certain concessions to one another but to the disadvantage, if possible, of other countries' trade with either of them—a bi-lateral deal, as diplomats call it. Secretary Hull wants his trade bargains to be as internationally inclusive as can be managed. By no means is he opposed to the inclusion of Germany, but not to the exclusion of any other nationality. He thinks the latter kind of a treaty would be injurious to Germany, but that isn't his business. What he does know is that it would be injurious to the United States.

**Aimed at Europe**  
The secretary said all this in effect, specifically to the National Foreign Trade Convention, but undoubtedly he intended the fuhrer and Herr Funk to overhear him. It's a safe bet that they did, too. Maybe Herr Funk won't come, on the strength of it. If he does, it goes almost without saying that he'll be most politely treated, superficially, but he'll get a punch on the nose essentially.

Secretary Hull implied a lot more than he said. He referred to "dictatorships," "autarchies" and "totalitarianism." In a narrow sense, he so expressed himself as to appear to mean trade dictatorships, but it was extremely obvious that he had in mind political dictatorships also, like Germany and Italy of course, and Japan probably.

He likewise stressed the "loss of liberty," "freedom alone." I'd think he hinted at the loss of all sorts of liberty, though it wouldn't have been diplomatic to put it thus. Our army and navy expansion programs likewise are more than suggestive of our estimate of the overseas growth of absolutism and the decline of democracy. They may seem like military activities, but they have the State Department's apprehensions back of them.

Plans of attempts have been made to induce the White House and the State Department to voice opposition to German and Italian persecution of the Jews and to both countries' evident wish to murder the Catholics. Rather naturally there's an official disinclination to say much on these subjects. No one questions that, personally, enlightened men like President Roosevelt and Secretary Hull are horribly shocked by these outrages. Yet it isn't surprising that they hesitate to go formally on record concerning them.

We have, indeed, said something semi-officially in behalf of the Jews in Palestine. However, that's outside our sphere of influence. There really isn't anything we can do about it—unless we choose to mix into world affairs on a larger scale than public opinion promises to justify at present.

**Up to Date, Isolationalists**  
This funny.

It's funny. This country is isolationist up to date. It doesn't want to have anything to do with overseas quarrels. It had its lesson in the last World War, and a cuckoo on the subject of keeping out of the next one.

Secretary Hull is one of our best keep-outers. Yet he's our very best internationalist.

It will be interesting to see him negotiate with Herr Funk, whose views are as different from Hull's as North is from South. And, of course, as a matter of fact, they'll have to negotiate amicably. At least, it will appear so.

## The Sheppard Committee

WASHINGTON, Nov. 9. DURING the campaign just ended two Congressional committees steadily functioned in a way to get genuinely national publicity. While equally distasteful to the Administration, there was a marked and interesting difference in their treatment by the New Deal spokesmen, both journalistic and political.

FOR EXAMPLE, while the Dies House Committee was unceremoniously denounced by the full New Deal chorus, led by President, the Senate Campaign Investigation Committee is criticized hardly at all. Yet in the long run the disclosures and findings of the latter seem likely to be much more important than those of the former. While undoubtedly Mr. Dies acutely embarrassed the New Dealers and some of their candidates by emphasizing the extent to which Communism permeates the C. I. O., with which Mr. Roosevelt is openly allied, the Senate committee did a good deal more.

IT NOT only charged but submitted evidence to show that the WPA in various States is up to its neck in politics; that contributions have been obtained by New Deal candidates from WPA workers; that pressure has been put upon them to vote "right"; that a spew of abominable corruption has been practiced in connection with recent elections; that the sweeping denials and swears of denigration of Mr. Harry Hopkins and his dutiful but not discreet staff, Mr. Aubrey Williams are automatic, synthetic routine and equivocal. All these things had been alleged about the WPA and Mr. Hopkins before, but in the past they have been dismissed as partisan stuff coming from either Republicans or anti-New Deal Democrats.

BUT the assertions of the Senate committee could not be so dealt with. For one thing, the committee is dominated by Democratic Senators, not one of whom is hostile to the Administration; for another, Senator Sheppard, of Texas, its chairman, is not only one of the most highly esteemed of Senators but has been a consistent Administration supporter and personal admirer of Mr. Roosevelt. It is a refreshing thing to find a man with his record of support of the Roosevelt policies who, when assigned to the job of investigating the conduct of a political campaign, does not feel it incumbent upon him either to ignore scandalous practices in his own party or to whitewash these responsible for them. No one could accuse Senator Sheppard of desiring to defeat Democratic candidates, or of wanting to damage Mr. Roosevelt, or of being in the pay of Wall Street. Nor is he an "Enemy of Social Justice" when Tabby phrase is mouthed these days by every cheap demagogue in the land.

ON the contrary, Senator Sheppard stands well—or rather did stand well—at the White House. He has consistently voted with Mr. Roosevelt on practically everything except prohibition, repeal, and the Anti-Lincoln Bill. Yet as chairman of this committee he not only has indicated the WPA as an instrument of the Government being improperly used for political purposes, but he pointed out that Mr. Morgenstern, (Continued On Page Five)

## DEMOCRATS IN OHIO STUNNED

State Turns Back On New Deal  
And John L. Lewis' C. I. O.  
As Well

(International News Service)

COLUMBUS, O., Nov. 9.—The greatest Republican landslide in Ohio in more than a decade left both the victors and their vanquished Democratic foes stunned today by its immense proportions.

In electing Robert A. Taft (R) senator over Sen. Robert J. Bulkley (D) and in choosing John W. Bricker (R) over Democratic National Committee man Charles Sawyer to succeed Martin L. Davey (D) as governor, the pivotal Buckeye state turned its back not only upon the New Deal but upon John L. Lewis' C. I. O. as well.

Then to make their decision crystal clear Ohio voters elected the entire Republican slate ticket with the exception of one supreme court candidate, gave the GOP a majority of the 24 congressmen and apparently gave Governor-elect Bricker a Republican legislature.

With only 89 of the 8,599 precincts unreported, Taft's plurality stood at 163,039 and Bricker's at 115,990 votes. The vote:

For Senator—Taft (R) 1,223,082; Sawyer (D) 1,107,092.

Both the New Deal and C. I. O. issues were clear cut. Bulkley asked to be returned to the senate because he had voted for a majority of New Deal measures. Sawyer, too, was in accord with the Roosevelt administration and was supported both in the primary and general election by the C. I. O.

## The Great Game Of Politics

(Continued From Page Four)

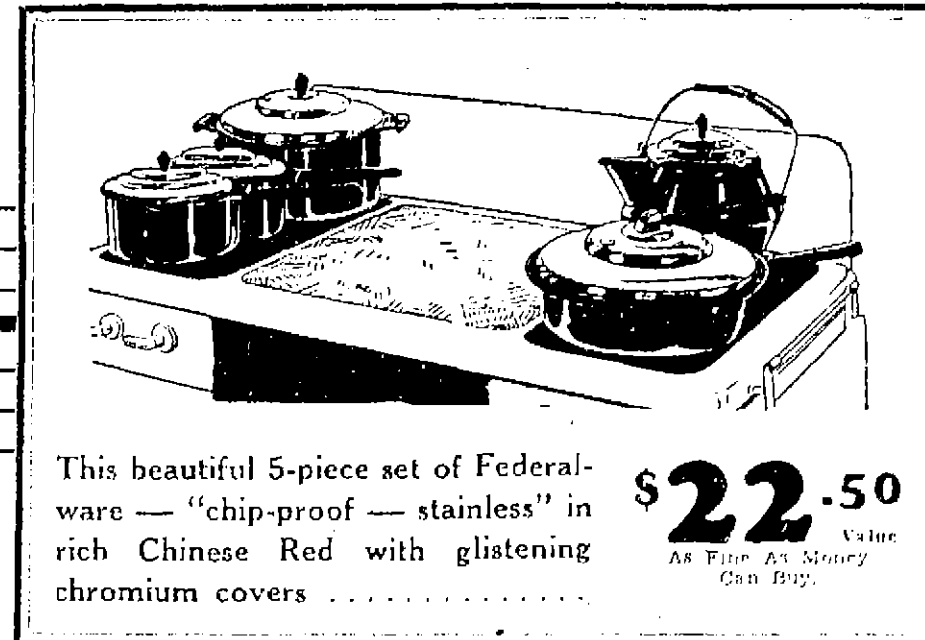

Secretary of the Treasury sanctioned improper activities of internal revenue collectors in behalf of Administration candidates in the recent primaries and he has submitted evidences of wholesale registration frauds by the Mayor Hague organization in New Jersey, where the President has endorsed the Hague candidate for the Senate.

ALTOGETHER the Sheppard committee has made charges which strike directly at the Roosevelt Administration and are calculated to damage it more than anything Mr. Dies has done. Yet, while the President flows into a press conference, passion against the House committee and every New Deal dog began to bay against the bungling Mr. Dies, hardly a peep has come from them about the Senate committee. The reasons are twofold: First, there is the fact that it is impossible to assail the highly respectable, level-headed, Roosevelt supporting Sheppard in the way Mr. Dies has been assailed. He can neither be called the willing tool of Vice-President Garner nor a Tory reactionary who is against "Social Justice". Second, there is a difference between assailing a Senate committee and assailing a House committee. It is unprecedented for a President to do either, but the resentment in the Senate to such an attack, particularly upon a committee headed by Senator Sheppard, who is the dean of Congress, having served in that body longer than any other living man, would be very much deeper and more effective. Appreciation of this has induced Administration spokesmen to refrain from any outburst against Mr. Sheppard, though at bottom they are almost as bitter toward him as they are toward Mr. Dies.

AS for the future, while it is unlikely the House will pass any legislation at the coming session as a result of the Dies disclosures, it is almost certain the Senate will act as a result of the Sheppard committee's report. Certainly it will greatly stimulate the movement to end the practice of voting lump sums for relief to be distributed by Mr. Hopkins as he sees fit. It will enhance the prospects of returning the administration of relief to the States where it belongs and ending a situation in which politics is inevitable and waste excessive.

## Philadelphia Is Carried By G.O.P. By Small Margin

James Carries Metropolis By  
About 15,195 Votes; Davis  
Fares Little Better

(International News Service)

PHILADELPHIA, Nov. 9.—Falling to live up to the example it set a few years back, this one-time rock-ribbed Republican stronghold turned in a comparatively minor plurality for the James-Davis ticket in the GOP landslide in Pennsylvania.

Tabulation of the complete returns from Philadelphia's 1,300 precincts today showed Judge Arthur H. James carried the metropolis by 15,195 votes, while his state-wide advantage over his Democratic rival, Charles Alvin Jones, mounted toward 300,000.

U. S. Senator James J. Davis fared a little better with a Quaker city majority of 17,443 over his opponent, Gov. George H. Earle.

Samuel S. Lewis, running on the GOP ticket for lieutenant-governor pined Dr. Leo C. Mundy, the Democratic candidate, by only 8,578 in this city, while William H. Livingston, Jr., Republican candidate for secretary of internal affairs, captured Philadelphia by a margin of 5,738 over the incumbent, Thomas A. Logue.

bert Hoover polled 420,320 votes in Philadelphia in 1928 to 276,573 for Alfred E. Smith, and Senator Davis, in 1936, swept Philadelphia with a vote of 357,293 to 96,544 for his Democratic opponent.

Roosevelt's Muchly Ballyhooed  
Majority Leader Is Victor  
Tuesday

(International News Service)

LOUISVILLE, Ky., Nov. 9.—Alben W. Barkley, the U. S. Senate majority leader, appeared assured today of reelection by a comfortable margin following a bloody election day in which eight persons were slain and two others seriously wounded.

Senator Barkley was well out in front of his Republican opponent, John P. Haswell in returns that were still incomplete. The vote in 2,253 out of 4,324 precincts gave the senate leader 173,260 votes to Haswell's 98,390.

In the bloodstained day of election violence in five years, four persons were killed in Harlan county, where four separate shootings occurred. Two others were killed in Owsley county, and one each in Bell and Todd counties.

National Guardsmen were summoned into the areas of violence to protect voters and ballot boxes. Scattered shootings in other areas

brought a score of arrests, but there was no further bloodshed.

The sole Republican from Kentucky in congress, John M. Robison of Barbourville, had a comfortable lead over Bert Rowland, Democrat, in the lead, 6,350 to 3,486.

## Two Killed In Crash Of Plane

Army Combat Plane Falls  
Into Street In National  
Capitol

### TWO OCCUPANTS BURNED TO DEATH

(Associated Press Service)  
WASHINGTON, Nov. 9.—Two army aviators—one an officer of the general staff—were burned to death today when their airplane crashed in flames in the heart of southeast Washington.

The pilot, Lieut. Col. Leslie Mac Dill, 48, a native of Monmouth, Ill., and Private Joseph Glonker, of Reading, Pa., had just hopped off from the army air base at Bolling field, where they were attached, for a routine training flight, when the crash occurred.

Witnesses reported that the wings on the plane, a basic combat ship, "seemed to fold up," and that the craft spun in a blaze into a busy thoroughfare.

The falling plane sheared off a telephone pole and then landed into a line of parked cars, wrecking three of them. Blazing gasoline from the wrecked ship sprayed through the air, igniting two other automobiles.

At the war department, officials said that Mac Dill had been working in the war plans division as a member of the general staff.

## BOY SCOUT NEWS

**TROOP HAS OUTING**  
Boy Scout Troop 3 held an annual outing Monday evening at Scout Camp John M. Phillips. As guests of the troop a group of boys from South New Castle Boro who are interested in forming a new troop, accompanied the scouts.

A hare and hound chase featured the outing. Upon returning to the camp the visitors staged an exhibition of tumbling. The scouts entertained the group with a short comedy skit entitled, "The Light-house Keeper's Daughter."

Sixty scouts, their guests and leaders gathered about a campfire and were served delicious refreshments. Scoutmaster E. D. Hawk was in charge of the outing.

If spy investigators wish to get at the bottom of things, they should call in the tax men who worked on our pocketbooks.

## NATION SURPRISED BY WIDE SCOPE OF VICTORY OF G. O. P.

(Continued From Page One)

Oregon, while the Republicans re-elected their incumbents in Pennsylvania, Vermont and North Dakota.

The Republicans regained control of state governments in Rhode Island, Massachusetts, Kansas, Iowa, Minnesota, Pennsylvania, Michigan, Wisconsin, Idaho, Colorado, Ohio, Wyoming and Oregon, with several still in doubt. They lost two governorships to the Democrats, in Maryland and California.

Thus, the Democratic recession encompassed the industrialized east and the grain belt of the mid-west, and extended to the Pacific coast areas—a convincing cross-section.

### Lehman Has Close Call

Here in President Roosevelt's own New York, which he carried two years ago by more than a million votes, Gov. Herbert H. Lehman, once described as his "good right arm," narrowly escaped defeat at the hands of youthful-hard-hitting Tom Dewey, 35-year-old district attorney.

Lehman squeezed through by some 76,000 votes, in a vote of more than 4,000,000. He ran about a half million votes behind the successful Democratic senatorial candidates, Senator Robert F. Wagner, the author of much New Deal legislation, and Rep. James M. Mead, another ardent New Dealer, who ran for the unexpired term of the late Senator Royal S. Copeland.

Dewey, although losing, was by no means obliterated as a political factor, nor as future presidential timber. He swept upstate New York as no candidate ever swept it before, coming down to the Bronx county line with a majority of 608,900. There he ran into a 682,000 majority which the Democrats made the cause of the greater city furnished for Lehman, and the result was he missed it by a close shave.

### Notable G. O. P. Gains

From a practical political standpoint, the governorship which the Republicans won yesterday means more to the party, in terms of 1940, than their notable gains in congress.

Back in power in the states, possessed of patronage and the machinery, the Republicans can now start organizing at the grass-roots for the presidential election two years hence.

The Democrats retain New York, Illinois, California, Indiana, among the larger states, but they have lost Pennsylvania, Ohio, Michigan, and they lost their "allies" as well in Wisconsin and Minnesota.

## MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will love you. If you are cross, listless and tired, men won't be interested. Men don't like "dead" girls. When they go to parties they want girls who are full of pep.

So in case you need a good general system tonic, remember for generations one woman has told another how to go "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders.

You'll find Pinkham's Compound WELL WORTH TRYING!

## RUNDOWN GLANDS— ARE YOU OLD AT 40?

Millions of men feel old, tired, rundown, incompetent early in life, their reproductive powers ended at 40 instead of 60. Try Vitamin E today and feel the return of your former vigor.

Emergency Service Boy Scout Troop Is Being Organized By Local Boys

In order that closer cooperation with the American Red Cross may be worked out by the Boy Scout organization, plans are being made to form an Emergency Service Boy Scout troop here.

This troop will be composed of the more advanced scouts and they will be subject to call to render voluntary services at any time. The special troop will be under the jurisdiction of the Lawrence County Scout Council, with the district commissioner in charge.

According to Karl F. Green, local scout executive, this troop will be composed of first class scouts who can comply with the following requirements: Be 15 years or more of age, in excellent physical condition, present the written permission of parents, and who hold the following Merit Badges and can pass the following tests prior to admission:

Merit Badges: First aid, safety, pioneering, personal health, public health, firemanship, life saving and rowing.

Qualification Tests: Run one mile in 8 1/2 minutes. Climb an 18 foot rope, hand over hand in 15 seconds. Tie a group of necessary knots.

In addition to the above requirements, the physical requirements of the scouts will be very strict, and only the fittest of the boys will be accepted for duty.

After the troop is completely organized, it will work hand in hand with the local chapter of American Red Cross, according to Executive Green.

## Leaves Hospital Bed To Cast Vote

GROVE CITY, Nov. 9.—Two weeks to stand, three weeks after blood transfusions were required to save his life, John Nordstrom, local manufacturer, was carried from his hospital bed to the polls here Tuesday.

Rain fell so heavily that many sturdy citizens refused to risk wading their feet, but John Nordstrom's rugged Republican spirit was superior to the ills of the flesh.

He arrived so vehemently with physicians that he finally obtained permission. Volunteers carried him to an ambulance, and he sat up long enough to be wheeled into the third ward polls. It was at the voters' machine less than 30 seconds and was whisked back to his bed in the Osteopathic hospital.

# Chest Drive Ends Thursday At Noon

Formal Campaigning To Close With Final Report Luncheon

HOPEFUL TOTAL IS GIVEN BIG BOOST

The \$62,200 goal of the 1938 Community Chest campaign may not be reached at the workers' final report luncheon Thursday, but several thousand dollars of the \$8,117 still unsecured is certain to be. That was the estimate of Chest drive leaders as they prepared today for the closing report rally of the current campaign. The grand total pledged is over \$55,083. The leaders hope, with all the citizenry, that the \$62,200 will be pledged tomorrow. But they know that the boost of several thousand will mean considerable and will ultimately end in victory for the drive. For the quiet solicitation of prospects will continue on after the terms are dismissed tomorrow. Tomorrow's meeting is scheduled for the First Christian church at 12:15 p. m.

## Lions Told Service Of Agencies' Board

**Dr. Bennett Relates Effective Role New Group Is Playing**

Members of the Lions club yesterday were given an interesting word picture of the important and effective service the newly-formed Lawrence County Board of Public Agencies is rendering New Castle and the county.

Speaking was Dr. G. S. Bennett, prominent secretary of the board and pastor of First Christian church. He was introduced by Dr. E. F. Henderson, club president. Dr. Bennett described the board's work as two-fold, that of avoiding duplications in welfare cases and of endeavoring to prevent undesirable transients, particularly those from outside Pennsylvania, from establishing residence here.

He told the club that "probably 100" welfare cases have been eliminated by the board in three months' time. He stressed the financial saving that brought the city or county. Represented on the board is the local Department of Public Assistance, the WPA, county court, county commissioners, county welfare office, the city police department and the sheriff's office of the county.

## Operations Upon Quints Successful

(International News Service)  
CALLANDER, Ont., Nov. 9.—The quints went under the knife today to preserve their health.

Marie, whose health has been the greatest problem to Dr. Allan Roy Dafeo, the famed physician to the five Dionne quints, was the first to be operated on for removal of her tonsils and adenoids.

On an improvised table Marie submitted to the operation without a quaver. The operation took a half hour and then Dr. Dafeo told newspapermen that she was "doing well."

Annette was the next and then the others. Dr. Dafeo reported that all the operations were successful.

# Two More Senators May Be Added To Republican Roll

Iowa And Indiana May Swing Against Democrats In Final Vote

By ARTHUR HACHTEN  
International News Service Staff Correspondent

NEW YORK, Nov. 9.—With a gain of eight United States Senate seats already in their bag, the Republicans today were gunning for pickups in Iowa and Indiana, whose late returns from Tuesday's election continued to leave the results in doubt. Silver-haired Lester J. Dickinson, Republican, held a slim lead over Senator Guy M. Gillette, Democrat, in Iowa, while Indiana Senator Frederick Van Nuys, Democrat, was only 5,300 votes ahead out of 760,000 votes cast for him and his Republican opponent, Ray Willis, newspaper editor of Angola. Nearly half of the state's precincts were yet to be heard from.

Incomplete returns indicated Senator Alva Adams, Democrat up for re-election in Colorado, escaped the Republican whirlwind there by a slight margin.

Likewise D. Worth Clark, Conservative Democrat in Idaho, was believed to have a safe advantage for election over Republican Donald Callahan.

# Sought To Observe Tonsil Operations For Quintuplets

Up in Callander, Ontario, today five little girls, the Dionne quintuplets, are getting their tonsils and adenoids out, but not even Dr. Allan Dafeo, their personal physician, will see the operation.

A local specialist called Dr. Dafeo on the telephone Tuesday and asked him what chance there was of observing the operations.

"Not a chance," replied Dr. Dafeo. "We have surgeons, 12 nurses, anesthetists and a flock of equipment up here. In fact, the place is cluttered up with the people and equipment. I won't even be in to see the operations myself, but come on up and we'll visit anyway."

The local specialist did not go.

## Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

Copyright 1933, King Features Syndicate, Inc.

In the past few days I have seen no less than four cases of shingles. This is a very common disease, and one of the most painful. It is caused by a virus which enters the body through a cut or scratch. The virus then travels through the bloodstream to the nerve roots, where it remains dormant until it is reactivated. At that time, it causes a painful rash and blisters to appear on the skin.

But in spite of this, some of my old patients insist on coming to see me. I guess they think because I was once a doctor, I must be a good one. I am, but I am not a miracle worker. I can only help them through the pain and discomfort of the disease.

Well, that is how I saw these four cases of shingles. People I had attended for years came to me with this most uncomfortable complaint. People who have never had it are inclined to laugh when they hear "So-and-so has shingles." It seems so funny. But anyone who has suffered from it doesn't laugh, for it is one of the most painful of complaints.

Shingles is caused by an acute inflammation in the roots of nerves leading from the head or the spinal area. These inflamed nerves cause eruptions on the skin that look almost like cold sores. They itch and burn, they should not be scratched for fear of infection.

The commonest place for shingles to occur is on the chest, usually on one side. Sometimes, however, a patient will have it on both sides, and there is an old superstition that if the shingles spread and girdle the body, the victim will die. Of course there isn't anything to this, but lots of old-timers are terribly afraid.

## AROUND CITY HALL

The new white cars for the city police department have not yet arrived. However, their arrival is anticipated daily, a salesman having informed Mayor Charles E. McGrath, the cars would be delivered this week. Citizens are anxious to see the new cars in operation. For some time past, some citizens have complained of the lack of police in certain vicinities. The police were in black cars which residents did not recognize. The new cars will be regency gray or white, as the salesman says, and every time a resident sees one of the cars in his neighborhood, he will have a sense of security, realizing that city police, in fast cars, well equipped with arms are hovering near, to give quick protection.

Hundreds of posters bearing the photographs and records of criminals are on the bulletin board in the hallway of the second floor, city hall. They were placed there by Detective Chief Ray Showalter. This gives city policemen an opportunity

ity of taking a mental photograph of the criminals wanted in different cities. The photograph of "Myrt" Cox, 41, alleged killer of Mary Spear, 71, is displayed on the board. There is also displayed a photograph of William Scott, colored, who was alleged to have fatally stabbed Bryant Fowler, also colored, in a pool hall in Moravia street. Although the murder of Frank Blumquist of Union township occurred near Portersville, the police of this city have not abandoned hope of the slayers being caught. However, definite clues are missing.

Lieutenant of Police Cecil Suber today reported that plans are progressing nicely for the Fraternal Order of Police ball on Thanksgiving night in the Cathedral. Annually the event attracts thousands. It is believed that the attendance this year will surpass that of former years. All of the policemen are "armed" with tickets and anyone who cares to aid the police pension fund may do so by helping to swell the crowd. The monies received from the ball goes to the pension fund.

Ed. Umbright, collector of garbage, will have employees of that department resume the collection of tin cans Thursday. The resumption will be in the Seventh ward. He has requested the placing of the tin cans in receptacles which are to be kept in yards and not placed on sidewalks.

## Farewell Dinner For Stewarts On Friday Evening

Family Returning To India Will  
Be Honored At First U. P.  
Church

In farewell to Mr. and Mrs. C. A. Stewart who are leaving New Castle soon to resume their missionary work in India, the women's missionary societies of the First United Presbyterian church are planning a dinner for Friday evening at 6:30 in the church dining room, Glenmore boulevard at Albert street. The dinner will be for the women and their husbands. A program of interest is being prepared.

Mr. and Mrs. Stewart, who have been residing on Elizabeth street during their furlough, will leave New Castle next week, with their sons, James and Douglas, who have been attending George Washington junior high school, and daughter, Ruth Mary, who has been attending Arthur McGill school. On November 22 they will sail from New York aboard the S. S. Excalibur, American Export Line, for Gibraltar, Naples and Egypt. In Egypt they plan a brief visit with Mr. Stewart's brother, Robert S. Stewart, who is with the Socony Oil company there. Then on to India, leaving December 29 at Bombay. On December 31 they expect to reach their destination, Dharwar, Punjab Province. Mr. Stewart is principal of a native high school for Indian boys in Punjab. It is a mission school of the United Presbyterian church. Mr. Stewart has been doing missionary work in India since 1917. His sons were born in that country, and Ruth Mary was born in America.

## The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1938 King Features Syndicate, Inc.

Automobiles, the mechanization of the army, the passing of the old side-bar road wagons and the elegant carriages and all the other wear and tear of a changing world don't seem to have affected the horse show greatly. This splendid fifty-third National Horse Show in Madison Square Garden is pretty much like those of the old garden—except in one detail. For the feature of the old shows, there has been substituted speed, precision, a generally faster pace, and one feels that in this difference of tempo there is the heartbeat of today—and not of those elegant equestrian, whence came our horse show.

The skill and daring of the women in the jumping events is a recurring annual marvel of the show. That has all come about in the last 20 years. It was not until 1917 that women were allowed to compete in these events. There is many a journeyman cowboy in the far west, a hot-coppered all his life, who couldn't match these youngsters in those timber-topping flights, in their perfect ease and horsemanship. And many a tough cavalry officer knows they can meet hazards like any man. Hot-house plants, supposedly, but all muscle and nerve, and, above all, poise. That, however, is not a surging of our day. The swooning, palpitating, be-ribboned and beaded Victorian girl could ride hell-for-leather to the hounds. Women, particularly young ones, always have been adaptable.

I have no authority for this, but it seemed to me that high school saddlers are getting better all the time. I am sure that a lot of them are not only collegiate, but have been picking up post-graduate degrees. There's a miracle of combined human and equine intelligence. Then in the "dressage," by which this performance is scored, there are 125 separate horse movements, each and each must be perfect for a perfect score. Furthermore, the rider must appear to be communicating with the horse by telepathy, and not by knee-pressure, weight-shift, voice or reins. This is a straightaway centaur act at its best.

The English developed high school saddlers as far back as 1700. An illiterate groom near Macclesfield, who had an untimely knowledge of horse behavior, was one of the pioneers. In this earlier stage, simple tricks, all but born in a stable, were the most successful in training the fancy-steppers. A gypsy was famous for his dancing horses which, it was insisted at the time, caught the most complicated rhythms played on his flute. They did not call them high school saddlers then. That was left

to the French and it was from France that we got the "Haut Ecole" of horsemanship.

That elegant old lady in the center of the horse show box her doesn't seem to have her mind on the prancing and stepping in the ring. Her thoughts seem to be focused on something far away and long ago. She surely remembers the first show of 1833, and William H. Vanderbilt, Frank Work, Robert Bonner and William Rockefeller. Stables in New York then were as thick as clear stories now, many of them near-palaces, housing beautiful carriage horses and carriages. No doubt she rode many times, in stately

grandeur, along the East drive of Central Park, the unpaved West drive into Seventh avenue and McComb's Dam bridge, to Eleventh and the Vanderbilt mile on Jerome avenue.

She must have known the tall and soldierly Lawrence Kip, with his handsome features, stout wazons, swank robes and whip and cast collection of all imaginable horse gear. She probably remembers that famous double-team race which ended the long rivalry of Vanderbilt and Work. There was a live public interest in trotting races then comparable to that in baseball today. The two contenders challenged each other back and forth in the newspapers with a public excitement mounting as it did recently in the preliminaries of the War Admiral and Sea Biscuit race. When the race finally came off, Vanderbilt's

Maud S. and Aidine were paired against Works' Edward and Duke Swifler, on the Freehold track. The Vanderbilt team won in 2:15 1/2.

The aggressor nations can't help it. People always act that way when ennobled by a real inferiority complex.

# Study Modernizing Of Government Accounting Methods

## Expect To Save Big Sums Yearly

Definite Need Said To Exist For Uniform Accounting Procedure

### SEE BENEFIT FOR BUSINESS IN U. S.

By ERIC FRIEDHEIM  
International News Service Staff Correspondent  
WASHINGTON, Nov. 9.—Modernization of government accounting methods designed to save business men and corporations millions of dollars annually and to furnish additional protection to the investing public is being studied today by federal financial experts.

Undersecretary of the Treasury John Hanes and Sec. Commissioner Robert E. Healy informed International News Service that a definite need exists to make uniform the accounting procedure currently employed by various government agencies.

**Primary Goal**  
The primary goal is to coordinate auditing and accounting methods of the internal revenue bureau and the sec. said Hanes and Healy. Accordingly, both have assigned experts from their respective agencies to study the problem with a view to formulating a new accounting plan. If such a program can be worked out, it is doubtful if any new legislation will be needed to make it effective.

The major benefit would accrue to business rather than to the government, since such a program would make easier the task of businessmen and corporations in conforming with income tax regulations and stock and bond registration requirements of the sec.

By simplifying the procedure, Hanes and Healy believe that business generally will save huge sums in legal and auditing fees every year.

**To Improve Method**  
One subject under particular attention is the current method utilized by business in handling depreciation of physical properties. When a business firm files its income tax return, it usually claims a large depreciation on machinery and other properties in order to reduce its taxes.

At the same time, the firm will do exactly the opposite when it files a registration statement with the sec. or when it submits a statement to stockholders. In these statements, the smallest possible depreciation is cited in order to make the company's financial picture more attractive.

"This creates considerable confusion among the investing public since there are conflicting versions as to the company's position," Healy explained.

Observing that the accounting studies are still in their preliminary stages, Healy revealed that he has already discussed the proposal with a group of private accounting experts. This group is convinced that such a program would be of considerable benefit to industry generally.

## Spread Terror Among Japanese

Chinese Guerillas Offered Money For Capturing Of Japanese Soldiers Alive

### MANY HUNDREDS HAVE BEEN SEIZED

(International News Service)  
PEIPING, Nov. 9.—Spurred by an offer of 200 Chinese dollars for every Japanese soldier captured alive, Chinese guerillas were reported spreading terror among Japanese garrisons in north-central China.

An entire detachment of Manchukuoans in the Japanese ranks deserted in the face of capture threats, it was reported, after a truck-load of Japanese troops fell into the hands of Chinese raiders near Miyun over the week-end. Generalissimo Chiang Kai-Shek's bounty offer has resulted in daily raids by the Eighth Route army within 50 miles of Peiping.

**Thousands Escape**  
Tens of thousands of Chinese soldiers have escaped enemy cor-

dons around Wutaishan and have started attacking between the great wall and Peiping. Chinese travelers arriving from the interior said.

On the pretext that immediate unification of the Peiping-Nanking puppet regimes is prevented by insurmountable differences, Wang Kessun, Peiping government official, attended a conference at Nanking recently to sabotage attempts at consolidation, Chinese assert privately.

Japanese claim in official announcements that 143,650 Chinese corpses were found on battlefields around Hankow and that 4000,000 defenders lost their lives during the capture of the city. With naval units at Klayu, a military unit now 15 miles southeast of Puchi and another nearing Pengshuling, Japanese are completing the first stage of a drive toward Shanghai.

## Hospital Drive Starts Thursday

Memberships In Hospital To Be Sold—Hope To Obtain 600

ELLWOOD CITY, Nov. 9.—The Ellwood City hospital membership drive will officially open tomorrow and campaign officials are confident of a great many local civic minded persons taking out memberships on the opening day of the drive.

Workers from every civic and fraternal organization in town will cover the entire community in the next six days to obtain the needed six hundred membership quota.

Memberships are \$10.00 and entitles the member full voting power and a voice in the control of all matters pertaining to the hospital.

Organizations are being solicited for contributing memberships and it is hoped that every organization will see the need of taking out a membership in our great humanitarian institution.

A six or seven hundred membership in the local hospital will assure the institution a means to carry on its great work without going into debt.

Previous to the last few years the hospital received seven or eight thousand dollars from the Community Chest to carry on a great deal of charity work that is needed.

J. A. Evans hospital membership drive chairman, urged all workers in the drive to give of their time unselfishly to this great humanitarian work as a goal of six hundred memberships or over must be obtained.

Mr. Evans stated that everyone working on the drive are the number of citizens of the community and that the civic minded citizens should respond to the plea for a \$10.00 membership in our community controlled hospital.

A report on the local hospital today showed 1,183 patients admitted, 2,631 laboratory examinations given, 635 X-rays, 441 operations, and 234 babies were born during the last year.

In a final statement, J. A. Evans stated that no civic minded citizen can turn down a membership in our hospital.

**Ellwood District S. S. Convention On Thursday Night**

Annual Mass Gathering To Begin With Fellowship Dinner At Christian Church

ELLWOOD CITY, Nov. 9.—A union fellowship dinner will feature a mass gathering of the Ellwood City district Sunday school workers, teachers, officers and members on Thursday evening at 6 o'clock in the First Christian church, Fourth street and Wayne avenue.

A fine program has been arranged for this annual convention and a large, representative attendance is anticipated. The service will begin promptly at 6 o'clock with the dinner and will be concluded shortly after 8 o'clock.

The invocation will be given by Rev. H. T. Carson, of the First Methodist church, after which the service will be introduced. A report of the nominating committee will be followed by reports of the county officers. Devotions will be conducted by members of the Young People's council after which the address of the evening on Bible school work will be given by Miss Myrtaw Roberts, state representative of Philadelphia. The speaker of the evening is one of state wide reputation and well fitted to address such a gathering. Robert Strickler, county president, will also speak.

Rev. A. M. Stevenson will be in charge of the music and Arthur J. Howell, president of the Ellwood district, will preside. "Christ The Heart Of The Sunday School" is the convention theme.

**Beaver Falls Is Next For Ellwood**

Game Friday Afternoon As Part Of Beaver County Armistice Day Celebration

ELLWOOD CITY, Nov. 9.—The big question that is being asked by Ellwood City high school football enthusiasts this week is whether the Wolverines, after reaching their peak last Saturday to decisively turn back the routed New Brighton eleven can stay at the top for their next two difficult games.

Friday afternoon will tell the tale when the Blue and White charge into Reeves stadium to meet Beaver Falls high school as a high spot in the Beaver County Armistice Day celebration.

The Croft-Gillis machine enters the battle as top-heavy favorites by virtue of seven decisive victories in eight tries and this hints to their advantage, their skipper believes. A 32-0 win over Mars, the Tigers' only victory this year having bowed or tried with all their other opponents. Even the luckless Butler crew and Monaca added Beaver Falls to their victory string. The only bright spots in the Walton machine record was in holding New Castle to a 6-0 score, and the powerful Midland eleven to a 7-0 landing. Many times in the past, Beaver Falls has spoiled Ellwood's chances of gaining an impressive record and they may do that same thing on Friday.

Ellwood's strong offensive team will be pitted against the conceded strength of the valley town's defense and the outcome is anybody's guess.

One of the largest crowds of many years is expected to witness the game to begin at 2:45 p. m.

Judge W. Walter Braham has handed down an opinion in the case of J. A. Graham, C. H. McGlenahan and Harry Googe against Edward P. Munn, tax collector of Mahoning township, the Sharon Steel Corporation, and the Mahoning township, school board, added defendant.

The case is one growing out of an attempt of tax collector Munn to collect per capita school taxes from the Sharon Steel corporation where the plaintiffs were employed, and have the amount taken out of their pay.

In his opinion Judge Braham says that the price for an injunction against the defendant Edward P. Munn, tax collector, restraining him from collecting the per capita tax is refused, but an injunction is granted enjoining the Sharon Steel Corporation, and the Mahoning township, school board, added defendant.

County Commissioners have found it necessary to re-advertise for bids for the grading of lands on the new Hillside road, from which houses have been removed. It was found that when the bids, under a former advertisement, were opened, that they did not conform to the specifications, and therefore the contract could not be awarded.

## Juniors To Stage Parade Saturday, Weather Permitting

Inclement Weather Will Force Cancellation Of Demonstration For Red Cross

Weather permitting, the Junior Red Cross of Lawrence county will hold its first junior parade as its part of the opening of the Lawrence county chapter Roll Call.

Chief Ralph Criswell will have men in the cruiser car to lead the parade and will also have officers at the chapter office so that the children will be safely guided in their parade.

From the interest taken by the children in Lawrence county schools as well as the city schools there is to be a splendid turnout and the chapter is hoping that the public will support the children's efforts in the spirit in which they have been given and will join in their enthusiasm.

Fred McLure, chairman of the Junior Red Cross of Lawrence county, will be in charge of the parade, assisted by Miss Margaret F. Bodenstein, executive secretary.

Through the kind courtesy of the Union high school board, Karl Rohrer, president, the benefit football game between the Wabash Bears and the Keystone A. C. will be played at the well new athletic field at Union high, or Scotland Lane which ever you prefer Sunday afternoon at 2:30 o'clock.

**Title At Stake**  
Obtaining of the field was announced today by Franklin R. Crisci, president of the city football league. The city league championship will be at stake in this important title.

The Keys handed the Bears a setback two weeks ago in a game at the E. & A. field and the Bears are anxious to atone for this setback. Coaches Willie Dominick, Blackie Adams and Skipper Russo will drill the Bears long hours this week to perfect their attack. Coach Tobe Fenah of the Keys will give the South Jefferson street boys quite a high pitch.

**Is Benefit Game**  
Tickets are being printed and will be sold at the game for the benefit of the injured players of both teams—Jake Regina, Nick Albert, Ray Micallef and others. The proceeds will go for doctor bills and hospital expenses incurred during the past football season.

Mr. Crisci has appointed Johnny Bram as his assistant in handling the various details of the game. Along with Rocco P. Vigniano of the Keystone club and Skip Russo of the Bears team.

Wrinkle Proof • Rain Proof

The secret finish that Society Brand gives the exclusive fabric has a lot to do with the Hudder's popularity. It imparts added luxury to the silk-like blend of alpaca, mohair and fine wool. But there are other reasons. The casually smart styles. The fine tailoring. The wrinkle proof and other unique features. And the fact that the value is so extraordinary. Give the Hudder the care and attention that such fine quality rightfully deserves and you'll find it the most satisfying topcoat you've ever worn.

### Lowellville Tough Hurdle For Bessemer

**Neighborly Foes Anxiously Await Kick-Off Friday On Bessemer Field.**

There's going to be a battle royal in Bessemer Friday afternoon when Bessemer high's undefeated and untied pigskin edition romps on the gridiron for its perennial squirmish with a neighborly foe, Lowellville, O. one of the toughest football customers in the district. The kick-off time, 2:15 o'clock.

The two clubs, separated by a mere six miles, have been aiming for this one all season. The Lawrence county class B champs will "shoot the works" in the hope of bagging their seventh triumph, and also keep intact a record of having not tasted a defeat pill in some 19 contests. Lowellville, known for years as a destroyer of records, will be primed. Because of the proximity of the two institutions, the game is the top billing on the schedule. The largest crowd of the season is expected to gather 'round and watch the schoolboys flip that egg-shaped pellet around the lot.

Bessemer rang the victory bell again last Friday, dumping Freedom high. Coach Capezuti's protégés are in good condition for the impending setto. Lowellville is also in excellent mid-season shape, according to the Ohio scribbles.

**Americanism:** Enduring a bad mess until it becomes unbearable reforming with such enthusiasm that we go too far and make the reform unworkable.

Among the first to greet Joe Gordon, second baseman of the world's champion Yankees, upon his return to studies at University of Oregon, was Della Root, daughter of Charley Root, Cubs pitcher. Gordon is a senior in the school of physical education, and will receive a bachelor of science degree.

### Mike Raffa To Box Robinson

**Halbert Brooks Alias 'Dancing Feet' To Tackle 'Sock' O'Brien**

### ARKETT TO BOX STATE CHAMPION

Fans who like science and also punch will see both departments of pugilism displayed Monday night when the Jefferson A. C. puts on another fistie entertainment. Some of the best liked fighters in this district have been doctored for action and in the spotlight or last battle fans will see Mike Raffa of East Liverpool test punches against Smokey Robinson of Oil City. They are featherweights.

Both Raffa and Robinson have strong followings here and it would not be surprising were it to turn out to be one of the best scraps fanned here has seen. In another scrap Babe Hutchison of East Liverpool will take on Jimmy Harper, Pittsburgh, at 126 pounds.

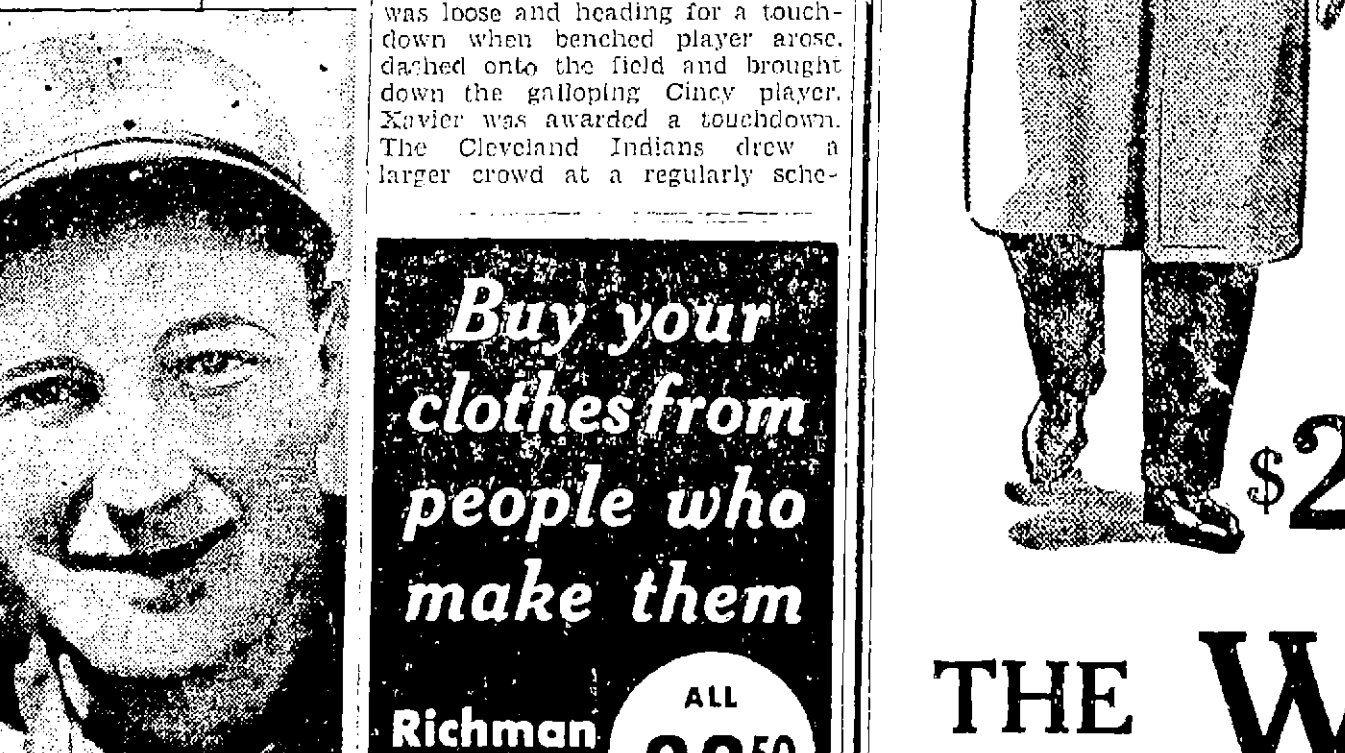

Chuck Arnett, the West Pittsburgh strong boy, will test conclusions with Irvin Hicks of Pittsburgh at 135 pounds. Hicks is said to hold the state A. A. U. title at 135 pounds. If Arnett improves on his aim and puts leverage into his punches he will make things tough for the state king.

**Challenges Rubin.**  
Jimmy Swopshire of Pittsburgh or Owen Wills of the same city will meet Al Strackvic of Campbell at 175 pounds. Strackvic is the chap who wants a crack at Mickie Rubin. He was informed he could have such a chance if he could put either Swopshire or Wills upon the canvas.

Don Dixon, Pittsburgh, a Golden Gloves champion, will oppose George Ceterese, who has fought here. They will weigh 118. Al Lewis will accompany Strackvic here and meet Russ Phillips of Oil City at 140 pounds, and Jess Robinson, Oil City, will meet Hal Kaach of the East Side at 135 pounds.

"Sock" O'Brien, the red-haired battler of Titusville, will take on Halbert Brooks, alias Dancing Feet, of Moravia street. Brooks has become quite a card as a novice while "Sock" already has copped one bout here. All in all, Monday night's scrap docket looks very inviting.

### New Boss of Browns

Signing of Fred Haney (above) to manage the St. Louis Browns, of the American League, fills last major league managerial vacancy. For the past two years, Haney managed Toledo, Detroit farm.

### Gersons Plan For Strong Quintet

**City-County Champions For 1937-38 Will Try Hard To Repeat**

The Gersons basketball team, champion of the city-county for the 1937-38 season, today announced that they will have a stronger team this year than last season.

Business Manager Walter Perch is very enthusiastic over the chances of the Jewellers repeating their success of last year. Jack Gerson has promised the boys his full support again this season.

The Gersons will again be coached by Mike Kulick and will have the following stars in the lineup: Harry Herdig, Elmer Laitinen, Bus Rzezzik, Joe Ostrosky, former Union high star, Alex Paron, Dal Mumford, former New Castle high star, Paul Small, Dave Hahn, Jack Hitchens and others.

The team will hold its first workout at the Arena floor on Sunday afternoon, November 13.

### Penn State May Make It Hot For Penn Saturday

STATE COLLEGE, Nov. 9.—If Penn State's Nittany Lions continue their "hot and cold" performances on alternate weeks, Pennsylvania will be in for a "hot" afternoon this Saturday when the two teams meet on Franklin Field.

In all three games where opponents have been able to get the jump on the Lions and score early. On the other hand, against Maryland, Lehigh and Syracuse, the Blue and White has tallied early on long runs and has won with comparative ease, scoring a total of 125 points.

Penn State is fortunate in having three fast running players for the tailback position. Harry Harrison, Steve Rollins and Chuck Peters are usually alternated in this post and in the majority of games where the blocking has been passable, this trio of backs has run opponents ragged.

### RYANTOWN WILL MEET

Manager Joe Samuels of the Ryantown baseball team would like to have all of the players who finished the season with the Ryantown team report at his home tonight at 7:30 o'clock for a discussion of the 1939 baseball season. All players must turn in uniforms and equipment that belongs to the Ryantown team.

### Martins Ferry Expects Crowd

**Send 1,000 Tickets To New Castle For Game Saturday At Ohio Town**

### TEAM TO RIDE SPECIAL TRAIN

They are looking for a big crowd at Martins Ferry on Saturday afternoon when Head Coach Phil Bridenbaugh leads his "Red Hurricane" eleven out on the green-sward to face the Purple and White Riders, coached by Loucks.

The Martins Ferry high officials have sent 1,000 tickets here for the game. They are on sale at the senior high school, the student tickets for 25 cents, and at the Sporting Goods Store, where the women's tickets sell for 25 cents and the men for 50 cents.

There are no reserved seats on sale for the New Castle-Martins Ferry game. A special section is being reserved for the New Castle delegation that will follow the team to the Ohio river port.

### Expect Big Crowd

Charles Wetmore of the Pennsy railroad said today that it looked as if a special train will be run to Martins Ferry. The rate is \$1.75 for the round trip. The train will leave on Saturday morning from the west side depot at 9:30 o'clock and will have on it, in addition to the fans and students, the New Castle high team and the fine 100-piece band led by Josepa Replogle. The band and team will ride in private coaches and no one will be allowed to enter the cars containing these two units.

Martins Ferry officials are looking for a crowd of close to 8,000 for this big game with New Castle. They are preparing a genuine welcome for the New Castle folks.

### BRITAIN SEEKS LEAD

To secure for Britain the lead in commercial aviation, the British Government will increase its subsidies to air lines so their liners may be bigger, swifter and more comfortable than those made in other countries. Designers are to be encouraged to produce new types of aircraft much larger than any now being constructed. Many of them, except those on European routes will be flying boats weighing up to 100 tons and capable of carrying 80 to 90 passengers and large mail loads. One plant in Rochester, England has started to build Britain's largest craft. Behind the entire plan is the desire to capture the commercial aircraft markets of the world, which London recognizes are being won by America and Germany.

# Accomplishments Of Red Cross Reviewed

Steady progress in the development of water safety, first aid, accident prevention, health activities, and continued relief to those in distress, marked the highlights of Red Cross accomplishments in Pennsylvania during the past year.

This was made known today by R. F. Davis, Chairman of the Lawrence County Chapter, in a summary report on state and local Red Cross work.

In addition to these achievements, he said, and one of the principal reasons for them, Pennsylvania's Red Cross enrollment increased by more than 50,000 during the last year. This places the total state membership at 474,720, higher than it has ever been in history.

Referring to the steady development of Red Cross services all over the United States, Mr. Davis said Pennsylvania chapters are not only holding their own but in many activities actually are leading the way.

**Teach First Aid**

"In the past year," he continued, "Chapters in the state taught over 20,000 persons the simple principles of first aid; the Lawrence County Chapter passed 275 persons under the leadership of Harry Gulliford, Chairman of First Aid, so often the means of saving lives of those injured in accidents. This same training has been given the employees of the fifty-five filling stations, tourist camps and similar places which have been designated as Red Cross highway emergency first aid stations for the purpose of giving immediate care to those hurt on our state roads. Lawrence County Chapter has one Highway First Aid Station located in the Dewberry Service Station on the Youngstown Road.

"In the protection of lives at swimming places, Pennsylvania Chapters provided life saving and water safety instruction for 7,284 men, women and children, bringing the total of those thus trained in the state to 61,930. Lawrence County Chapter passed 189 in Junior and Senior Tests under Charles Brest, Chairman of Life Saving and Water Safety. ## Franco-Italian Pact Is Sought

France Would Scrap Pact With Soviet Russia In Favor Of Italy

(International News Service)  
ROME, Nov. 9.—France is prepared to scrap her military alliance with Soviet Russia in exchange for a Franco-Italian pact, Andre Francois-Poncet, new French ambassador, has hinted to the Italian government, it was authoritatively reported here today.

The French representative, within 24 hours of his arrival here, took steps to find a firm basis for a treaty of Franco-Italian amity paralleling the Anglo-Italian pact.

He was said in well-informed quarters to have lost no time in indicating to Palazzo Chigi officials that France will not let her Russian alliance stand in the way of western European "appeasement". In the name of Premier Daladier, the new envoy was declared to have assured the Italians of his government's eagerness to take additional steps along the path of "political realism" opened at the Munich four-power conference.

Anticipated Democrat Lead In Allegheny County Fails To Materialize

(BULLETIN)

(International News Service)

PITTSBURGH, Nov. 9.—

The Republican majority in the state election continued to mount early today as the returns increased and approached the 300,000 mark.

Returns from 5707 of the state's 8054 precincts showed U. S. Senator James J. Davis' the Republican incumbent, leading Governor George H. Earle, his Democratic opponent, 1,520,328 to 1,293,663 for the senate seat. Judge Arthur H. James, the victorious Republican candidate for governor, had polled 1,515,633 votes to 1,335,730 for Charles Alvin Jones, his Democratic opponent.

Republican Sweep  
HARRISBURG, Nov. 9.—Pennsylvania returned to its political traditions today as a Republican sweep that carried GOP nominees into governorship and the senate seat already held by Republican James J. Davis.

Trailing by more than 200,000 votes, the Democratic major candidates, Gov. George H. Earle for the senate and Charles Alvin Jones for governor, each conceded defeat early this morning.

Democratic leaders, who worked through a hectic campaign with the advantage of state and federal patronage and presidential endorsement, apparently were stunned by the force of the GOP upsurge.

Republicans jubilant over the two-fold victory rejoined conversely without restraint, just as four short years ago a surprised slate of Democrats celebrated their termination of an unbroken 44-year Republican rule.

Pandemonium was the order as torchlight parades led by practicing GOP workers took over city streets and the main thoroughfares of county hamlets throughout the state.

BALTIMORE, Nov. 8.—Jubilant Democrats were claiming the state at 10:30 p. m. here, as incoming vote tallies revealed steadily increasing leads for Democratic candidates in all offices.

With 399 of Baltimore's total 471 precincts counted, Democratic incumbent Millard Tydings was leading his Republican opponent, Oscar Leser, by more than two to one in the senatorial race.

Herbert O'Connor's lead over the Republican governor incumbent was climbing toward the fifty thousand mark. The returns so far:

For governor:

O'Connor, 122,601.

Nice, 81,498.

For senator:

#### RED-LIGHT PARADES STAGED DOWNTOWN

(International News Service)

PHILADELPHIA, Nov. 9.—

Pandemonium broke loose among Philadelphia Republicans early today as it became evident that the Davis-James ticket was sweeping to victory in both city and state.

With Gov. George H. Earle, Democratic candidate for U. S. senator, conceding the election of his Republican opponent, Senator James J. Davis, incumbent, and with Judge Arthur H. James, Republican, leading Charles Alvin Jones, Democrat, in the gubernatorial race, Republicans cast aside restraint.

Bringing one of the heaviest off-year election days in the city's history to a close, G. O. P. supporters thronged into mid-town streets and staged impromptu red-light parades around City Hall.

Whistles and bells shrieked and rang, reminiscent of a New Year's eve celebration as Republican officials and workers envisioned breaking of the four-year Democratic rule in Pennsylvania, ushered in by Earle's election as governor in 1934.

Jubilant reignited in Republican city headquarters, where workers had watched incoming returns tensely all evening.

"I am very happy to see that the people of Pennsylvania and Philadelphia have taken it into their hands to change the state administration and give the affairs of the commonwealth to the Republican party, which for years has proved its ability to administer their needs," said Jay Cooke, Republican city chairman.

In the Democratic camp Gov. Earle lapsed into silence with declaration he had no statement to make outside the concession of defeat.

Joining in the return to Republicanism in the Commonwealth of Pennsylvania, Lawrence county returned a majority of approximately 4,000 for the G. O. P. in Tuesday's voting. The majority, however, came entirely from the rural districts, the city of New Castle going Democratic by a few hundred and the rural vote going Republican in a definite manner.

#### \$30 Thursday Plan Headed For Defeat

(BULLETIN)

(International News Service)

SAN FRANCISCO, Nov. 8.—The highly controversial \$30 every Thursday "ham-and-eggs" pension plan in California, apparently was headed for defeat tonight as tallies in today's election rolled in.

The vote from 2,052 precincts of the state's 12,472 gave: Yes, 90,638; no, 102,000.

However, these figures were significant as populous Los Angeles county, believed to be a stronghold of the pension advocates, was voting the proposition down.

At the same time Sheridan Downey (D) was headed for success in his run for the U. S. Senate against Philip Bailett (R). Downey, in 1,729 precincts polled 88,178 to Bailett's 60,697.

Culbert Olson (D) had a commanding lead on the incumbent, Frank P. Merriam (R) for governor, 1,729 precincts showing Olson with 122,393 and Merriam with 92,825.

Lehman Wins

(BULLETIN)

(International News Service)

NEW YORK, Nov. 9.—Thomas E. Dewey at 1 o'clock this morning conceded the re-election of Gov. Herbert H. Lehman.

He sent his successful Democratic opponent the following telegram: "Heartiest congratulations on your re-election. I wish you every success and happiness."

publican governor, held a plurality of 20,000 votes with nearly one third of the ballots counted.

Payne H. Ratner, liberal Republican lawyer from Parson, led Gov. Walter A. Huxman by 11,000 votes. The totals in the two tiers with 911 precincts out of 2,709 in the state gave:

Read 84,381; McGill, 64,368.

Ratner 81,772; Huxman, 69,301.

New Deal opposition overflowed into the congressional fight where the Republicans appeared to have a good chance of capturing six out of the state's seven seats in the lower house.

#### Gov. Lehman Is Re-elected In New York

Dewey Makes Notable Battle For Governor As Republican Nominee

#### LEHMAN WINS BY ABOUT 100,000

(BULLETIN)

(International News Service)

NEW YORK, Nov. 9.—Governor Herbert H. Lehman's re-election for a fourth term by approximately 100,000 votes was indicated tonight on the basis of returns from 7,479 of New York state's 9,055 election districts.

The governor's lead over Thomas E. Dewey climbed slowly as the heavy New York City plurality cut into the huge vote polled upstate by his youthful opponent.

Leaders did not believe that returns from the 1,577 missing districts, 388 of which are in New York City, would wipe out Lehman's present lead.

Indications also were that Charles Poletti, Democratic candidate for lieutenant-governor, has been elected. The two Democratic candidates for U. S. Senate, Robert F. Wagner and James M. Moad, had comfortable leads. The fate of the rest of the ticket was in doubt, however.

Despite the governor's indicated re-election, he did not publicly claim victory, nor did Dewey concede defeat. Postmaster General James A. Farley also remained silent.

SALTONSTALL HAS 100,000 MAJORITY

(International News Service)

BOSTON, Nov. 8.—Former Speaker of the State House Leverett Saltonstall (R) was elected governor of Massachusetts over ex-Governor James Curley (D) by a majority of between 75,000 and 100,000 votes, according to latest returns tonight.

Curley's home city of Boston failed him in his attempt for a political comeback and returns from the cities of Lynn, Marlboro, Brockton, Holyoke, Northampton and Springfield showed that his hopes of capturing all the labor and WPA vote had not been realized.

Saltonstall not only made heavy inroads into Democratic city strongholds but captured towns throughout the state.

In many places Curley held the 1936 Democratic vote but the battle drew out a heavy vote with the result that Saltonstall exceeded in many instances the 1936 Republican vote.

Nearly half of Boston, 190 out of 388 precincts, gave for governor; Curley 87,554, Saltonstall 57,616. Curley supporters had expected to win Boston by at least two to one.

One hundred thirty towns, the two cities of Lynn and Marlboro complete, and 190 out of 388 precincts in Boston tonight gave for governor:

Saltonstall (R) 149,111.

Curley (D) 146,082.

#### REPUBLICANS MAKE NOTABLE GAINS IN ELECTIONS TUESDAY

By GEORGE R. HOLMES

(International News Service Staff Correspondent)

NEW YORK, Nov. 9.—Control of congress and most of the state governments remained in Democratic hands today—but the Republicans slashed heavily into the huge Democratic majorities of recent years in Tuesday's off-year elections, and by so doing served notice on the New Deal they must be reckoned with in 1940.

The Republicans chalked up some notable gains in senate, house, and in the governorship races.

With some states still in the doubtful column this morning, it appears that Republicans have gained senate seats in Kansas, New Hampshire, Connecticut, Wisconsin and South Dakota; picked up probably 60 seats in the house of representatives; and regained control of the state governments in Rhode Island, Massachusetts, Kansas, Iowa, Minnesota, Pennsylvania, Michigan and Wisconsin.

All this while giving the Democrats the scare of their lives in President Roosevelt's home state of New York, for Gov. Herbert H. Lehman, whom Mr. Roosevelt once called "my good right arm," eked out a narrow victory over his youthful Republican opponent, Thomas E. Dewey. Lehman's margin is under 100,000, as compared with the Roosevelt landslide majority of more than a million two years ago.

Early this morning, Republican candidates for governor and senator in Ohio were leading, with the outcome still in doubt.

Likewise in doubt was the senatorial contest in New Jersey, and in several far western states, where there were gubernatorial and senatorial contests.

The extent of the Republican

sweep amazed the New Dealers and surprised even the Republicans themselves.

The Republicans had claimed—and the Democrats had conceded—that they would be some Republican gains, for in the 1936 elections the New Deal had reached its zenith, and the Republicans their lowest point of effectiveness since the party was founded.

New Deal Reverse Amazes  
But the New Deal reverse went a great deal farther than the Democrats had anticipated or the Republicans had really expected. It was confined to no particular section, but spread across the country from New England to the Rocky mountains, and beyond.

With Ohio still in doubt, it appeared early this morning the Democrats could point with pride not much further than New York, Illinois and California, among the larger states. They retained New York but narrowly, Illinois rather easily, and wrested control of the state government in California, while retaining their senate seat there.

Third Party Routed

The third parties—Phil La Follette's newly formed Progressives in Wisconsin, and the Farmer-Laborer in Minnesota, fared badly, which seems to remove them as a possible threat in 1940.

In Wisconsin, Gov. Phil, seeking a fourth term as governor, went down to defeat to Julius P. Heil, a Milwaukee regular Republican, and the Democrats lost a senator when F. Ryan Duffy was beaten by Alexander Wiley, another regular Republican.

In Minnesota, the Farmer-Labor governor, Elmer A. Benson, for whom President Roosevelt sent a telegram of praise only last week, was defeated by a 31-year old regular Republican, Harold Stassen, with the Democratic candidate, Thomas Gallagher, running a poor fifth.

Iowa Is Won By Republicans

(International News Service)

DES MOINES, Nov. 9.—It became apparent today that Republicans fighting for control of the state government had scored a sweeping victory at the Iowa polls yesterday.

Only Senator Guy M. Gillette, Democrat whose paction was equivalent since he was re-nominated with Republican support, seemed likely to escape the landslide which was removing Democratic officials from the governor on down.

Gillette had a bare head over his Republican opponent, Lester J. Dickinson, while Gov. Nelson G. Kraskel was running far behind his opponent, George A. Wilson of Des Moines. A tabulation of 761 of the state's 2,447 precincts gave:

For Wilson, 117,427.

For Kraskel, 100,988.

In the senatorial race, these precincts gave:

For Gillette, 109,347.

For Dickinson, 105,980.

INDIANAPOLIS, Nov. 8.—Returns from 477 precincts out of the state's 3,872, tabulated at 9:45 p. m. in the race for the United States Senate seat from Indiana, showed:

Meanwhile, at Saluana, an official insurgent communique claimed that government planes bombed a school at Cabra, Cordova Province, killing 87 persons and wounding 117.

jokingly published an item to the effect that an Erie train had run into a huge snowdrift near Williamsport's corners, derailing five flat cars heavily loaded with ostrich feathers. "As I live and breathe," said he "a number of people walked from Greenville to Williamsport's corners that evening to see the wreck. That was my last hoax."

It won't be long now until some of those who have been occupying the anxious seat will be at the mourner's bench. The ballot is so short that we ought to have a good idea how the election is going by midnight. However, as it looks now there are going to be some very close contests, and we may not know for sure until tomorrow evening.

Here's a thought regarding new industries. If a big community chest fund can be raised, there is no reason why new industries cannot be financed by local capital. The money is here, and there are plenty of citizens who will invest if it can be shown that the proposition has a reasonable chance of success. It is not a lack of capital, but a lack of ideas, that is needed.

T. Wilbur McCullough, of North Walnut street, reports that he has lilac bushes in bud and E. L. McGoun, of North Crawford Avenue, states that his peonies are two inches above the ground.

Speaking of punk artists, what about the fellow who pulls out from

There is said to be a man out west, who is in an awful fix. He has been unusually active in advocating a division of wealth. The other day his grandmother died and left him over a million dollars. He now finds himself in a very embarrassing position.

Pa News saw a little girl on Washington street today with curls hanging down her back, clear to her waist. They were golden curls, too, the kind we like to rave about, and she looked very pretty. Despite these new fangled hair dressings, there's nothing any prettier than curls, especially on a little girl.

Pa News counts sixteen William Joneses in the new city directory.

Monday afternoon, a parrot in its cage, was on a perch on North Crawford Avenue. That fact in itself is evidence that the weather was of the summer variety, as a parrot likes warm weather, and is then in its element.

Miss Ella May Griner, of Albert street, may feel a little miserable today, after having had her tonsils removed at the Jameson Memorial hospital this morning, but she did her duty and voted before having the operation performed. Even an operation cannot keep some people from the polls today.

With election day finally here, there can be satisfaction on one line at least it will not be necessary to "canonize" political speeches for some months to come.

A group of local professional men were discussing the election and the question of who was the last Republican governor was brought up. No one in the crowd could answer. When queried The News was able to furnish the information, but Pa News had to think twice on the matter. I was Gifford Pinchot.

(Continued From Page One)

In the three counties making up the 26th congressional district, Lawrence, Butler and Beaver. Mr. Graham has a lead of 236 in Lawrence county, with every precinct of the 100 reported. In Beaver county he is running neck-and-neck with Eckert, and in Butler it looks as though Graham would have a lead of about 1,000, or a trifle more. The total votes cast in Lawrence county were about 1,000 more than The News forecast of 35,000.

## Graham Has Lead Of 5000

With Lawrence and Beaver counties giving Louis Graham, of Beaver about an even break in the contest with Congressman Charles R. Eckert in the election on Tuesday. Butler county with returns from 73 out of 85 precincts early this morning shows a majority of about 5000 for Graham.

This Republican candidate's election to congress from the Beaver-Lawrence-Butler district is assured.

## Trend Toward Dictatorship Is Halted—James

(International News Service.)

HARRISBURG, Nov. 8.—Judge Arthur H. James, victorious Republican gubernatorial candidate, in an early morning victory statement today said his victory "definitely halted the trend toward dictatorship in this state."

"The result in Pennsylvania provided impetus for the return of two-party government in Pennsylvania and in the United States," he stated. "After all, the foundation of democracy is two-party government."

"Naturally, I am happy that the trend toward dictatorship in this state has been definitely halted. I am grateful to the men and women of Pennsylvania for the opportunity their splendid vote affords me to put forth my best effort in attempting to solve the problems that confront people of this commonwealth. With your help this can be done."

## People Speak Says Margiotti

(International News Service.)

PITTSBURGH, Nov. 8.—"The people of Pennsylvania have spoken with unmistakable vigor that they will not stand for crime and corruption," former Attorney General Charles A. Margiotti said today in a formal statement.

"The election results are a drastic warning to political leaders of the past and future that we still live in a democracy where no individual or group of individuals, regardless of party, can rise above the welfare of all the people."

## Colorado Goes To Republicans

(BULLETIN)

DENVER, Col., Nov. 8.—Ralph Carr, Republican candidate for governor, appeared today to have led his party to an almost unbroken victory in yesterday's election of state officials.

Democratic Senator Alva B. Adams, however, held a 4,000 vote lead over Archibald W. Lee, Republican in 173 precincts out of 1,509 in the state.

The battle to repeal Colorado's controversial \$45-a-month old age pension law was still in doubt.

## Lead For Bricker Is On Increase

### PENNSYLVANIA SWEPT BACK TO G. O. P. COLUMN

(Continued From Page One)

to hold the Republican lead in Philadelphia to approximately 18,000 votes, their anticipated sweep in Allegheny county failed to materialize. Earle held a lead of only 13,000 there when he conceded defeat. Jones was leading in Allegheny, his home county, by 33,000, but still lagged in statewide returns.

Just as disappointing to the Earle-Jones backers was the slimmest of their lead in Lawrence and Fayette counties, registration strongholds for the Democrats.

Democrats Concede Defeat  
Pittsburgh, Nov. 8.—With the Democrats conceding defeat, the Republican majority once more returning Pennsylvania to the G. O. P. column climbed to the 200,000 mark early today with about five-eighths of the state reported.

U. S. Senator James J. Davis and Judge Arthur H. James, the victorious Republican nominees for senator and governor, kept on piling up leads as virtually complete returns for Philadelphia and other counties were reported.

With 5271 precincts out of 8054 in the state tabulated, the results stood:  
For U. S. senator:  
James J. Davis, Republican incumbent, 1,361,687; Gov. George H. Earle, Democrat, 1,167,513.

For governor:  
Judge Arthur H. James, Republican, 1,411,744; Charles Alvin Jones, Democrat, 1,200,071.

The Republican candidates for lieutenant governor and secretary of internal affairs were leading the Democrats by similar margins.

ELY IS DEFEATED

## Fitzgerald's Lead Over Murphy Grows

(International News Service.)

DETROIT, Nov. 8.—Former Governor Frank D. Fitzgerald (R) this morning noted victory in his fight to regain the governorship of Michigan from Governor Frank Murphy (D).

Returns from 1,395 of the state's 3,546 precincts, including more than 100 Wayne county precincts, gave Fitzgerald a 93,855 vote lead.

The vote was:  
Fitzgerald 314,891.  
Murphy 221,036.

Murphy's expected landslide in Wayne county failed to materialize as fully as was expected, and although he ran nearly two to one ahead, it was believed his outside losses would more than overcome this.

(International News Service.)

HARRISBURG, Nov. 8.—Republican State Chairman James F. Torsance issued a "victory" statement early today based on Judge Arthur H. James' substantial early lead over Democratic Charles Alvin Jones for the governorship.

"They also have expressed their faith in the entire Republican ticket. The voters' decision means restoration of sane and sound government. Pennsylvania has saved itself."

## President Is Pleased With New York Race

(International News Service.)

HYDE PARK, N. Y., Nov. 8.—Pencils and pads in hand, President Roosevelt and an intimate group tabulated election returns tonight as they poured into Hyde Park house by telephone and radio.

Shortly before midnight Secretary Marvin H. McIntyre, present in the library, reported to news-papersmen that "the President had a big smile on his face and generally seemed very happy over the results" at that hour.

Primarily, the Roosevelt "watch party" was jubilant over the indicated triumph here in New York state of Governor Herbert Lehman and his Democratic ticket over the extremely strong bid of District Attorney Thomas E. Dewey's Republican slate.

## President Pro Tem Of State Senate Defeated Tuesday

(International News Service.)

HONESDALE, Pa., Nov. 8.—State Senator Harvey Huffman, president pro tem of the senate, today was defeated in his attempt to return to the legislature. His victorious opponent was Republican candidate Montgomery F. Crowe, Stroudsburg.

Huffman's defeat means that his position as president pro tem would probably be taken by Sen. John Rice, Adams Republican.

Huffman, while-haired leader of the state Democrats, was first elected to the upper house in 1910 and was re-elected in 1922, 1926, and 1934.

He urged all citizens to get wholeheartedly back to Governor Lehman.

## Saltonstall Has Narrow Escape

(International News Service.)

BOSTON, Nov. 8.—Levi Saltonstall, victorious candidate for governor, narrowly escaped injury at midnight when he was engulfed by upwards of 3,000 admirers at a Republican get-together in the main ballroom of the Parker house.

Arriving at the cheers of crowds in the streets, the Republican Standard-Bearer was helped to a half broken table. He shouted:

"This shows the Republicans can celebrate a victory; this is a victory for all the people of the state. You've heard about my face during this campaign, well, here it is again, the same face, now that I'm governor."

The crowd swarmed about him, nearly knocking him from his perch. He was caught by his hands as he was about to topple from the swarming table.

## Nebraska Trend Is Republican

(International News Service.)

LINCOLN, Neb., Nov. 8.—With precincts slow in reporting and only 318 in by midnight, Gov. R. L. Cochran tonight was trailing in his race for re-election to a third term.

He was still the choice of election observers to win with the aid of a huge Omaha majority, but it was conceded on all sides that the outside territory was going much more heavily Republican than had been expected.

It appeared that Nebraska might elect three Republicans and two Democrats congressmen, where there are now four Democrats and one Republican in the lower house.

With 318 of the state's 2,033 precincts counted, the governorship vote stood:  
For Charles Warner, 14,944.  
For Cochran, 12,438.  
For Charles Bryan, 7,806.

"The Outstanding Cleaners and Dyers"

INDIANAPOLIS, Nov. 8.—A Republican landslide that surprised even the Indiana G. O. P. leaders themselves, tonight threatened to unseat Senator Frederick Van Nuys (D), and menaced the tenure of incumbent Democratic members of the House.

An early "big city" lead of Senator Van Nuys had shrunk to less than 7,000 when 78 of the 3,872 Indiana precincts had been tabulated.

Heavy G. O. P. majorities in the rural areas had dashed the hopes of the Democrats.

Van Nuys at this point had 206,792 votes to 200,130 for his Republican opponent, Raymond E. Willis, Angola publisher. Charles A. Hake, only Indiana G. O. P. congressman, had been re-elected handsily.

Among the Democratic congressmen who probably will lose their seats are Phil Gray, 10th district, and James I. Farley, fourth district. Those in danger included Glenn Griswold, fifth district, and Mrs. Virginia Jencks, sixth district.

Democratic incumbents were ahead in the seventh, eighth, ninth, eleventh and twelfth districts. George Baumer (D), was ahead in the contest for the third district seat resigned by Congressman Samuel Pettengill.

The Republican upheaval extended to the city of Providence, which elected its first Republican mayor in 25 years, John F. Collins.

For governor, Sprague (R) 11,629; Hess (D) 8,332.  
U. S. Sen. Holman (R) 7,680; Mahoney (D) 6,257.  
U. S. representative third district: Ansell (R) 7,739; Honeyman (D) 6,272.

The crowd swarmed about him, nearly knocking him from his perch. He was caught by his hands as he was about to topple from the swarming table.

## Stassen Makes Surprise Run

(International News Service.)

MINNEAPOLIS, Nov. 8.—Showing unexpected strength, Harold E. Stassen, Republican candidate for governor, tonight jumped into a two-to-one lead over his rival, Gov. Elmer Benson, Farmer-Laborite, supported by President Roosevelt.

Returns from 130 of the state's 3,739 precincts, most of them from Minneapolis, gave Stassen 41,000 and Benson 18,000. Thomas Gallagher (D) was running a poor third.

## DEMOCRAT LEADS

(International News Service.)

SPRINGFIELD, Ill., Nov. 8.—Returns from 2,582 precincts out of 8,315 in Illinois tonight gave Scott Lucas (D) an approximate lead of 109,000 over his Republican opponent, Richard J. Lyons for the U. S. senatorship.

# QUEEN ESTHERS PLAN ANNUAL YULETIDE PARTY

Entertaining as well as interesting was the meeting Monday evening of the Queen Esther class of the Third United Presbyterian church, held in the home of Dorothy Kay on Hazleroff avenue. She had as her co-hostesses Elsie Brandon, Edyce Brandon and Mrs. Morris Hook.

Mrs. Bernard Hook opened with the usual devotionals period, and songs were later enjoyed, with the following taking part. They were: Mrs. William R. McGowan, Mrs. Charles Brinker, Mrs. Morris Hook and Mrs. Bernard Hook. Accompanist was Mrs. Harold Watson.

President, Marietta Daugherty, conducted the business hour, when plans were discussed regarding their annual Christmas party, which will take place December 5 at the church. Gifts will be exchanged. The decorating committee for the event includes Mrs. Garth Rapson, Mrs. William McGuire and Mrs. Clarence Love. Those named on the new program group are Mrs. William McGowan and Mrs. Morris Hook. The refreshments will be in charge of the social committee.

During the evening Mrs. Paul Mooney, nee Helen Perrell, a bride of recent date, was presented with a lovely gift in behalf of the class. This was cleverly carried out, while the same period was in progress, taking the honors by surprise. Lunch was enjoyed afterwards, and the appointments were suggestive of the Thanksgiving theme.

DO THIS: Massage his throat, chest and back with Vicks VapoRub and tuck him into bed. Next, put a spoonful of VapoRub in a bowl of boiling water; place a newspaper or sheet over the child's head like a tent, covering the bowl too, so the medicated vapors can be inhaled for several minutes. This treatment loosens phlegm—clears all passages—checks tendency to cough—relieves local congestion. Long after he relaxes into peaceful sleep, VapoRub's poultice—and vapor action is still bringing relief—and you can get a good night's rest too.

## TWENTIETH ANNIVERSARY OF ARMISTICE DAY

ARMISTICE DAY apart from its mandate to the heart of mankind also imposes one on the pocketbook to see to it that no more wars occur. For it is a fact generally recognized that costly without comparison as is the loss of life and health and the sufferings that are part of war, there follows in its wake a series of economic disturbances and discomforts and losses with which the immediately present generation is battling.

During the twenty years that have passed since the first Armistice Day, amazing things have happened. The great tragedy is that the world is filling up with causes of "another war." More money is being spent on armaments today than before. Obviously there are festering international troubles.

In the light of the day's memories of suffering and anguish these things are difficult to believe. Apart from that they are challenges to the peace-loving men and women of all lands to pool their efforts in a mighty movement to suppress dictatorial influence in the U. S.

## A MAN DEFIANT AT FOUR-CORNER

Life begins at 81 for E. G. House of Pocatello, Idaho. He celebrated this birthday by taking his first piano lesson, and hopes presently to be sitting down to the piano with nobody laughing.

It sometimes happens that an elderly person becomes an economic burden on his family or friends, often not his own fault, but there should be no reason for him to be a spiritual liability. If a man or woman of sixty, seventy, eighty or ninety takes up study of music, painting, a foreign language or any other worthwhile activity to keep the mind occupied, it's an idea to encourage.

## SAFETY IN AIR IS INCREASING

That the zeal for aviation safety among those who design aircraft equals, even if it does not surpass, the solicitude of plane pilots themselves, has been demonstrated anew at a National Aircraft Production meeting in Los Angeles. Figures quoted by experts there should convince the most insistently land-bound. J. A. Herlihy of United Air Lines pointed out that there was only one passenger fatality per 16,206,423 passenger-miles flown in this country from 1933 to 1938.

The engineers who supervise construction of today's planes, which every month increase their safety record factor, have a right to feel—and at meetings like this to express—self-approval of their handiwork. Meanwhile the modernized contest of men versus machines goes on with absolute lack of any danger in the air as the nearing objective, and it is not necessarily a discredit to men that machines they devise and fly seem more trustworthy than they.

## DRIVING SUGGESTIONS WHEN WINTER COMES

From Evanston, recognized by safety authorities as the safest city in the world, comes "Winter's Seven Safety Suggestions" for motorists.

Judge Harry H. Porter, chief justice of municipal court and president of the Safe Winter Driving League, listed practical safety measures for coming blizzards as follows:

1. Test brakes for simultaneous gripping.
2. Check condition of windshield wiper, defroster and tire chains.
3. Travel at less than moderate speeds on snow or ice covered highways or city streets and watch for children on sleds.
4. Shift into second gear for more gradual braking on snow or ice, particularly if not safeguarded by tire chains.
5. Take curves slowly and don't try to pass cars ahead of you on hills or curves. Descend steep hills in second gear if icy.
6. Apply brakes with clutch engaged and before you ordinarily would in dry weather—and don't depend on your horn because other car windows may be closed and some drivers (especially in country) wear ear muffs.
7. Exercise greater caution generally and open car windows occasionally to prevent windows fogging up and, in old cars, possible danger from carbon monoxide gas.

Remember: "An ounce of prevention is worth a pound of cure."

The Evanston safety record includes only one traffic death this year, and three times winning of the National Safety Council's award as "the safest city." It is the home of Northwestern University's Institute of Traffic Safety which instructs police and public officials of numerous states in modern safety and traffic.

## The Parent Problem

By Garry C. Myers, Ph. D.

## RECOGNIZE YOUNGSTERS' RIGHTS

Sally seized the big, sharp-pointed scissors. They were bright and wonderful, and they were Sally's, too, because she had them in her hands. Mother had left them on the chair when she had gone to the back room. On her return she saw Sally standing by her wobbly little body with her left hand while she held the open scissors, point upward, in her right.

Terror seized the mother and she seized the scissors. The child, indeed, screamed, stamped her feet and held as tightly to the precious scissors as she could.

## Taught Her Nothing

Three months passed by and Sally learned to walk alone, and run. One day she found the paring knife near the edge of the kitchen table. She saw her mother coming. Sally ran, her mother running after her. The poor child fell, but, as luck had it, no injury was done. Sally was so small and weak, and mother was so big and strong! Two times a day, ten times a day was little Sally forced into surrendering something which she had set her heart on as her own. But every time she struggled valiantly. She had a reason: she was defending what was dear to her.

What a baby holds within her grasp is hers. Her right to its possession is about as dear to her as are our rights to what we call our property.

## Ask Her For It

Recognize her rights. Don't force an object from her grasp. Ask her for it. Make her choose to give it up. Wait until she hands it to you. When she does, thank her most generously. If she is not likely to respond to a mere request, offer something attractive in exchange. Keep her patient. Take all the time necessary to get results. If you so treat the infant of 12 months, you can lead her happily to give up anything and lay the foundation for co-operative obedience.

It may seem to take considerable time at first, but the way to save time when we deal with babies is to seem to lose it: the way to lose time is to seem to save it. When we persuade a little child to give up an object without resistance we are helping make it easy for her to give up like objects in the future. If we force from her a dangerous thing we are helping make dangerous things henceforth more hazardous.

## The World AND THE Mud Puddles

## "SAVE THE RUTLAND"

While railroad executives, railroad union men and the government of the United States are worried concerning the fate of the railroads, worrying about the cost of transportation and about the wages of labor, a four hundred mile piece of railroad in the State of Vermont is in danger of being entirely abandoned.

The Rutland Railroad which runs for four hundred miles through up New York State and the Green Mountains of Vermont to its final terminus in Montreal, is so threatened. It no longer has sufficient income to meet its fuel bills, pay its labor, and in July of this year appeared to be destined to be the first complete railroad in the United States to disappear because of truck competition.

The merchants and business men, however, along the line of the Rutland have taken very unusual methods to keep it in operation. While railroad officials have been asleep and permitted truck competition to become so keen, nevertheless trucks cannot carry all of the freight. There is much freight which it would be out of the question for trucks to even attempt to handle.

The abandonment of the Rutland would mean a great loss to the business men of the area. When the railroad was unable to meet the bonds in July, foreclosure and disintegration of the railroad was threatened. Then the business men started a campaign. Accompanied by the fanfare and ballyhoo of parades, speeches and ballyhoo, the citizens of this area served by the railroad started the "Save the Rutland" campaign in an effort to raise the money to defray expenses of a program to secure continued traffic to insure continued operation of the road. This campaign is now in full blast. There is every indication that the Rutland will be saved.

It only goes to show what a determined people can accomplish in the face of all the jealousies and wolfishness of conflicting interests.

Benjamin Sturtz, New York City cab driver, was waved to a left turn by a policeman clearing the way for a fire engine. A block farther on, another cop arrested Sturtz for making a left turn where he was not supposed to. The first officer, coming to the rescue, gave the cabie \$1 "to pay your fine with." In court, the judge, isolated with amusement to the story, suspended sentence and told Sturtz, "That's a miracle. Take that dollar home and frame it."

I will reduce sentence to nine months."

Elsie—Oh, you flatterer!

Mikhail: No it's true. I had to look twice before I recognized you.

## What's What At A Glance

Elections Lack Early-Day Fire  
Candidates Worn Out In Primary  
Republicans Hope Lie In Future

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, D. C., Nov. 2.—In certain spots this has been a red hot pre-election campaign. Generally speaking, however, the post-primary fighting has not been very sensational. The fact is that most of the congressional candidates and their followers were themselves to a frazzle and used up nearly all their ammunition in the nominating contests. Since then they have been too tired to scrap except rather lazily. Also they have suffered from a shortage of fresh political projectiles to hurl at one another. Another thing that has made the combat pretty tame is the fact its outcome can't conceivably make much difference, as between the two major parties. By no possibility could the Republicans have gained control of the Senate, even if they won every Senate seat at stake this year—a ridiculous supposition. Nor has the G. O. P. itself hoped to attain better than about a 1-to-2 representation in the lower congressional chamber.

The Democratic campaign committee has conceded that the Republicans probably would score a few gains, which are usual in mid-administration years against the nationally dominant party. The Democratic committee has allowed for perhaps one or two more congressional seats in the next Congress, and maybe twenty more Republican representatives—a mere bagatelle, in the circumstances. The Republican committee has claimed three or four new senators and up to eighty new representatives. Perhaps a fair compromise guess should have been two or three more Republican senators and up to forty more Republican representatives.

searcely requires saying that the New Dealers classify plenty of pro-fishing Democrats as Republicans. Such Democrats, if elected, will be jotted down in the Congressional Directory as Democrats, and it will look as if the Democrats remain overwhelmingly preponderant. But what's in a name? A Republican rose under a Democratic designation smudged just as sweet.

No, on second thought, not quite as sweet; for technical reasons the name does matter to politicians. But it's safe to say that a Republican, once under the Democratic name since just as disagreeable to New Dealers.

This year's really mean intra-party fights have been in California, Ohio, Pennsylvania, Michigan and New York. And possibly there has been some maneuvering in Iowa.

In California there has been an old-fashioned campaign, one of "funny money" bids. President Roosevelt doesn't believe in "funny money" but endorsed Sheridan Downey, "funny money" candidate for the senate. Ohio rival candidates between Senator Robert J. Bulkley and his Republican opponent, Robert A. Taft, have been fought viciously. In Pennsylvania Governor E. A. Tamm, who has had a Republican grand jury after him, as a Democratic senatorial candidate. In Michigan Governor Murphy has been accused by Dies committee witnesses of communistic sympathies. In New York gubernatorial candidates Herbert H. Lehman and Thomas E. Dewey have been swapping epithets.

It will take an official count of votes to tell how these folk come out.

STATE RESULTS AN ITEM

How the state fights come out will be significant.

Federal appointive "paps" counts heavily.

Nevertheless, a governor has a lot of jobs to hand out. If he wins, even against the federal government, his state-wide patronage makes him a local power.

These considerations and congressional considerations make this a queer election, even after the votes have been counted. You don't know exactly who or what party has won.

AS TO THE FUTURE

Fulfillment of G. O. P. claims must be regarded as Republicanly somewhat encouraging, with a modicum of promise for 1940. Politicians should see it so, but not necessarily the average voter, with the Democrats still in an enormous congressional majority, though a somewhat shrunken one.

It doesn't follow, either, that a creditable Democratic showing should be accepted as satisfactory to the Roosevelt administration. It is the Roosevelt administration. It is the Roosevelt administration.

These days when a member of a family goes hunting the rest of the folks in the family are more interested in seeing him come back in good shape rather than what game he brings home.

Fifteen hours after she had been pronounced dead and prepared for burial, 90-year-old Mrs. Charlotte Jones of Kingston, Jamaica, set up, burst into a hymn, got out of her coffin and walked away.

Willie: "Pa, what is a miracle man?"

Pa: "A man who can keep his dignity while eating corn on the cob!"

Just think of it! Thousands of school children in Dayton, O., being kept out of school because there is no money to pay the teachers and other expenses in that city. This, when billions are going with the wind in this country.

Wonder who will have to pay the damages when workers are slugged by pickets because they are not paying their dues?

## New Castle Presents Appealing Night Scene To Scribe In Plane

From the air New Castle is quite beautiful in the daytime, but at night its beauty is greater by far. A view of the town from a plane at night is a sight to behold. The lights of the town are reflected in the water of the Schuylkill river, the beautiful moon could be seen reflected in the water.

### Can See Many Cities

From the airplane a glance about at the horizon on all sides reveals many strange things that are almost unbelievable. Lights in the cities of Youngstown, Bessemer, Ellwood City, New Wilmington, Mt. Jackson, and Butler, could all be plainly identified.

All around the horizon flashing airplane beacon lights marking the cities of East Liverpool, Clarion, Butler, and a number of airline routes could easily be seen. Radio station beacon lights were also visible from a number of cities.

Returning to the airport, the reporter brought the plane in for an excellent landing, using only the moon and a few lanterns for illumination. Climbing into another waiting airplane, the reporter was given another view of the town by Findley C. Wilson.

On this particular night, all of the many roads leading into the city were crowded with cars hurrying to get back to the city after a week-end trip to a nearby town. Lights of the cars were stretched for miles along the highways and closely resembled a diamond studded necklace or bracelet.

Over the business district of the city, there hangs a light haze caused by the smoke and fog of the district. This haze is visible over the business district because the strong lights are continually reflecting on it.

The city's industrial plant, from the air, presents an appearance of bustling activity. Over the cement plant the red hot materials could be seen tumbling about, and over the mill the reflection of the fires could be seen through the windows.

## AROUND CITY HALL

James L. Pink, acting mayor, so far has proven a police court judge of very few words, and when required, he has made the said few words bring fines into the city treasury. Relative to street brawls, Fink has followed the practice of Mayor Charles E. McGrath and levied fines. "The streets of the city shall be kept free of disorder and if not those who commit disorderly acts must expect to pay for their actions," he has stated. As soon as he arrives in Chief of Police Ralph A. Criswell's office he is given reports by arresting officers. He scans them closely then convenes police court. He is impartial but in rendering sentences he has shown that he intends to punish wrongdoers.

City Solicitor William G. Cobau has been instructed to appear before the State Housing board November 18 and oppose a move to have a local housing authority set up here. According to city council, to create such an authority would be a needless waste of money. It having been indicated there is no shortage of houses in this city. The motion instructing the solicitor to oppose the move was presented by Councilman William H. Dunlap.

Police are looking eagerly for the arrival here of the two new Chevrolet sedans purchased before Mayor Charles E. McGrath died westward for a rest on the Pacific's sunny slope in California. The cars will be regency gray or white.

## DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

Autumn leaves rustling in a gentle breeze.  
How much noise does that register?  
About 6 decibels, according to the scale.  
A decibel is a unit of hearing or audition.  
The least intensity of any sound is one decibel.  
The scale runs up for sounds on the same pitch.  
Heavy street traffic rates about 75 decibels.  
A loud automobile horn goes up to 100 decibels.  
A boiler hammered by 4 men two feet away—110 decibels.  
Loud, disturbing noises cause echosis.  
Noises disturb sleep, cause fatigue and emotional upset.  
Able city governments enforce noise abatement ordinances.

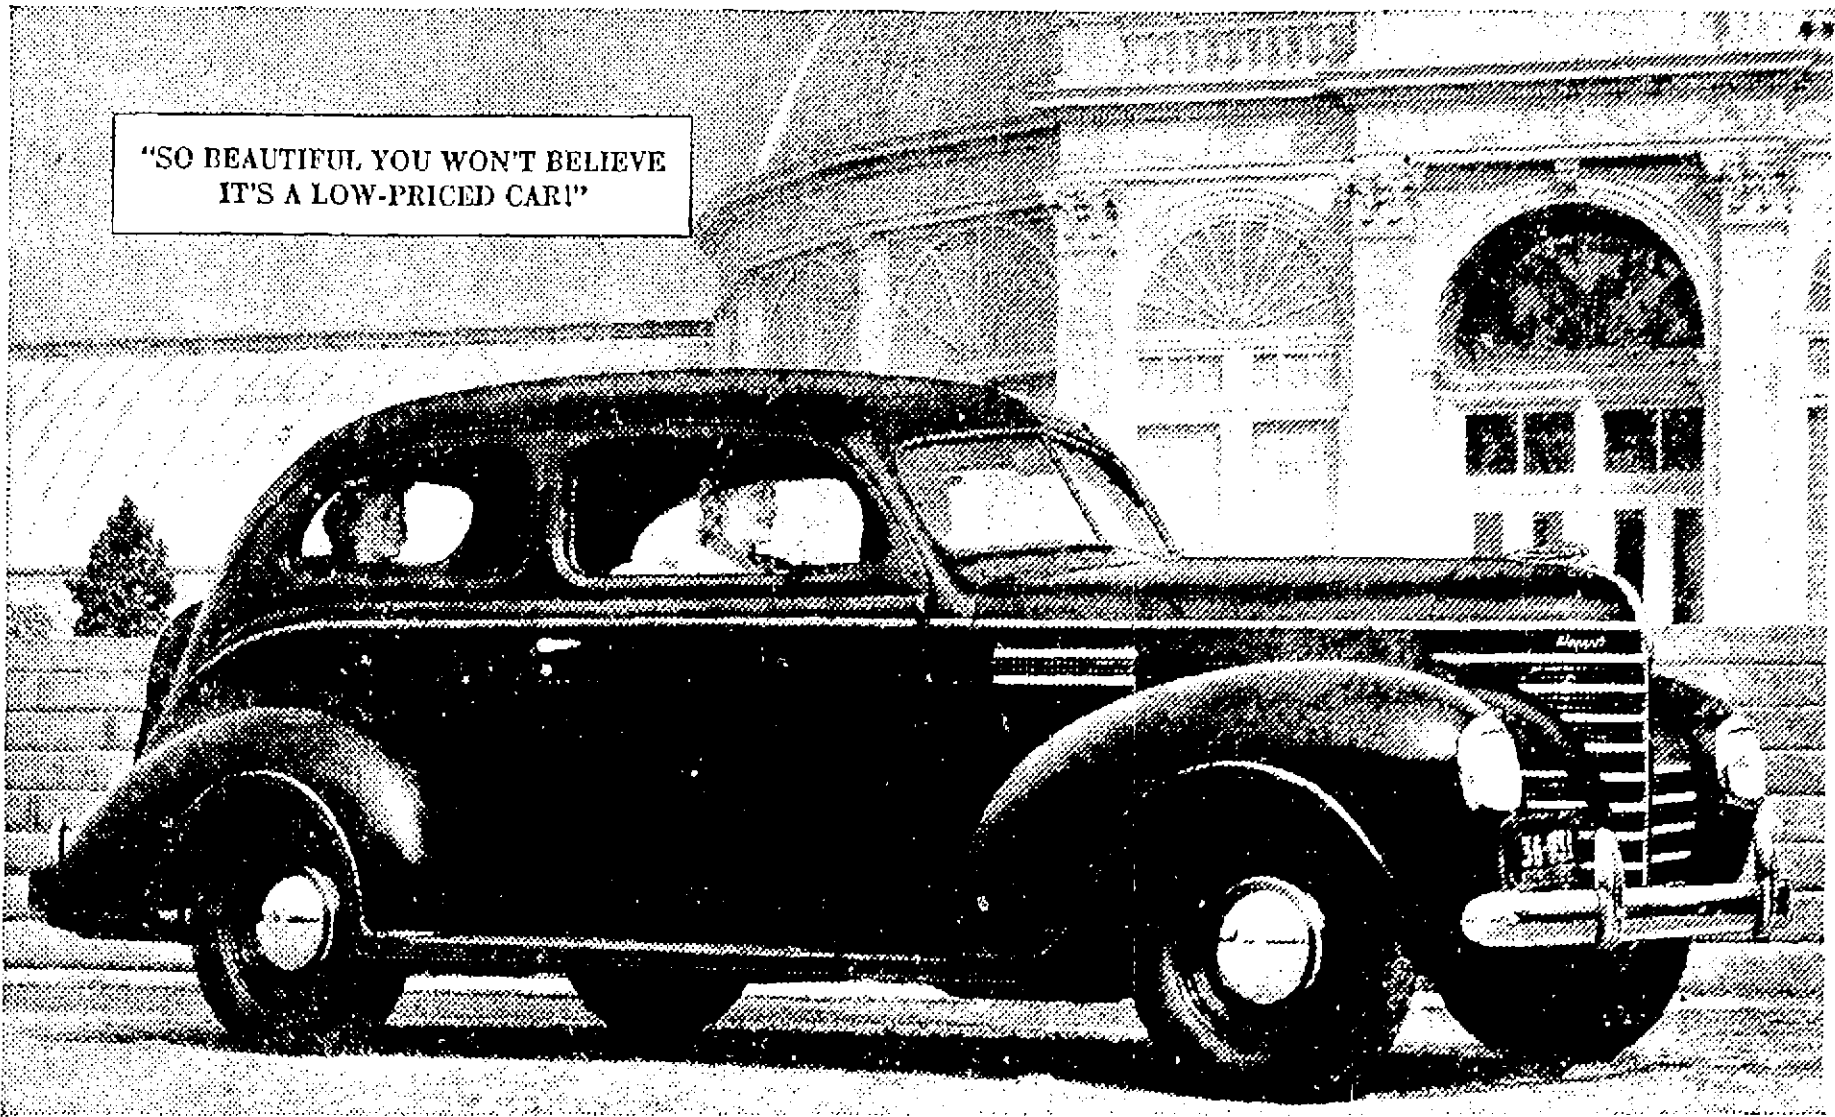

## School Program May Fall Through

GROVE CITY, Nov. 8—Pears are expressed locally that the proposed merger of Grove City boro and Pine township schools may fall through for lack of financial aid from the Federal government. About \$250,000 for the erection of a junior high school building has been applied for by the combined school districts, but the application is apparently buried in Washington.  
The two local districts have complied with every provision of the merger, badly needed to adequately serve the pupils of the borough and township, but it is believed that appropriations may be held up pending the outcome of Tuesday's election.

## To Get the Best Cough Remedy, Mix It at Home

**Real Relief. Big Saving  
So Easy. No Cooking.**  
This famous recipe is used by millions of housewives, because it makes such a dependable, effective remedy for coughs that start from colds. It's so easy to mix—a child could do it.  
From any drugstore, get 2½ ounces of Pinex, a compound containing Norway Pine and palatable guaiac, in concentrated form, well-known for its effect on throat and bronchial membranes.  
Then make a syrup by stirring two cups of granulated sugar and one cup

of water a few moments, until dissolved. It's no trouble at all, and takes but a moment. No cooking needed.  
Put the Pinex into a pint bottle and add your syrup. This gives you a full pint of very effective and quick-acting cough remedy, and you get about four times as much for your money. It never spoils, and is very pleasant—children love it.  
You'll be amazed by the way it taken hold of coughs, giving you delightful relief. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Money refunded if not pleased in every way.

# SILVER COFFEE AT SECOND U. P. SUCCESS

One of the leading events of the social season for the Huston Bible class of the Second U. P. church, was the silver coffee held recently in the church assembly rooms, which attracted guests numbering upwards of 125.

The scenes dealt with historic periods, etc. Those sharing included the following: Mrs. Lavantia Thompson, Mrs. Charles Stitt-mater, Mrs. Reid Weimer, Miss Wanda Hanna, Mrs. I. W. Garro-way, Mrs. George Hanna, Mrs. Robert Crauthers, Mrs. Robert Estep, Mrs. A. E. Kerr, Miss Shirley Hink-son, Miss Lavantia Campbell and Mrs. G. V. Campbell.

In conclusion, coffee and refreshments were served at long tables seating groups of eighteen or more. The autumnal motif was used in the appointments throughout. A silver offering was taken afterwards.

## Transfusion For German Diplomat

One Bullet Is Removed From Body Of Wounded Diplomat, Shot In Paris

GUN WIELDER IS HELD BY POLICE

(International News Service)  
PARIS, Nov. 8.—Ernst Von Rath, third secretary of the German embassy here, who was shot and seriously wounded by Herschel Grynsztan, German-born Pole of Jewish extraction, underwent a blood transfusion today. His condition is grave. Meantime police probed into the past associations and all other available facts about Grynsztan searching for light on the motive of his attempt on the life of the German official.

A formal request that police permit a German representative to be present during examination of the 17-year-old Polish Jewish youth was refused by French authorities, and there were reports the German embassy was considering a protest.

**Criminal Matter**  
So far, however, the case, in which Grynsztan sent two bullets into the body of Von Rath, has been handled purely as a criminal matter and has been left entirely to the Surete National.

With one of the bullets removed by an operation, Von Rath remained in serious condition. Both French and German government officials were kept advised of his progress. He was shot down inside the embassy by the youth, who shouted: "I want to take revenge upon you for the sufferings your countrymen have caused my fellow Jews."

Grynsztan, a native of Hanover, Germany, was described by the German embassy as a "fanatic acting in behalf of Jewish propagandists in France."

**Football Ends Quit School At Auburn**  
(International News Service)  
AUBURN, Ala., Nov. 8.—Denied the opportunity of rejoining the team before next season, Stencil Whitley and Max Harrison, Stellar ends on Auburn's football squad who "walked out" last week when Coach Jack Meagher "bunt our feelings," left school again today.

The boys returned to school yesterday and sought the opportunity of rejoining the team, explaining that "we figured we were wrong."

After discussing the matter with the other school officials, Coach Meagher ruled that both boys would be given an opportunity to adjust themselves and then rejoin the team next year.

When informed of the ruling, however, both "decided to leave school," according to Elmer G. Selter, publicity director who announced the coach's ruling and the decision of the boys.

## Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

### CHILD'S PLAY A NECESSARY PART OF HIS WELL-BEING

Parents do well to recognize early that children love to play, and encourage them in this.

At first the child, of necessity, plays with his own body. He waxes his arms and legs in apparently involuntary gestures. He puts his fingers, yes, often a whole hand, in his mouth. When he can catch hold of anything he seems to have strength enough in his hands to bear his own weight.

So if the baby won't lie still, if he braces his feet against the foot of his crib, and pushes his body back and forth, don't worry. He's just playing, getting his exercise. I remember when the quintuplets were very small they would lie for hours and play with their fingers and toes. As they got older, Cecile and Yvonne succeeded in putting their toes in their mouths. But the others were never able to imitate them at this.

Such playing should be kept under observation as much as possible.

Not that the parent should interfere very often, but just to see that the child doesn't twist into an uncomfortable position. Don't interfere with the child's movements any more than you have to.

A great place for children to play and get exercise is in the bath tub. Until the quintuplets were three and a half months old they were never in a bath tub. The only bathing they got until that time was with oil. But when they did get into the tub they had a great time splashing about. We used to put them in two at a time, with the nurse keeping an eye on them, and how they loved it! We kept getting larger and larger tubs until by the time they were five months old they had graduated to a regular tub.

As I have told you, we bathed them two at a time. This left one quint to be bathed by herself, and we always chose Marie for this role. We did it with the best of intentions. She was the weakest and needed the most attention. But

even at that early age she detected favoritism. Why should she be in that big tub all by herself day after day, when her sisters had company? So she fretted over it and protested as well as she could. It was quite a while before we found out what was the matter. Then we treated her the same as the others, and she was a different baby at all times.

As children develop and are able to crawl around, they crawl and crawl, apparently just going around for the fun of it. The same is true when they first learn to walk. Nature demands activity from these small children; puppies are the same.

We found a great thing for giving the children their exercise. It is called a playground gym. It really is nothing but a rack, or a sturdy wooden framework six feet high and about five feet square. The children climb all over this, swing by their hands. They literally spend hours on it.

Too high for children, you say; well, the quintuplets have been climbing over it since they were a year and a half old, and not one of them has been hurt on it yet. Of course, they are under constant watch.

# King And Queen Accept Invitation To Make Visit To U. S.

## Definite Plans Will Be Decided

Temporary White House Gives Out Announcement Of Acceptance Of Invitation

WILL COME DURING SUMMER OF 1939

(International News Service)  
HYDE PARK, N. Y., Nov. 8.—King George and Queen Elizabeth have accepted an invitation from President Roosevelt to visit the United States next summer in connection with their tour of Canada, the temporary White House announced today.

"The president is very happy to know that the king and queen of Great Britain hope to be able to accept his invitation to visit the United States next summer," declared a formal announcement. "While no definite plans have been made, it is expected that their majesties will be able to stay in this country for four or five days."

Informal word from London some days ago outlined an itinerary in Washington for the royal couple which included a stay at the White House and a state dinner, a reception at the Capitol and a ball at the British embassy in honor of President and Mrs. Roosevelt.

The London Dispatch said the king and queen would bring their stay in the states to a close by witnessing a fleet review off Hampton Roads.

## Movie Stars Are Planning Fewer Pictures In Year

By MILTON HARKER  
(Copyright 1938)  
HOLLYWOOD, Nov. 8.—The movement among top flight film players to limit their work is gaining momentum daily. Experience is teaching them they are better off physically and financially at the end of the year if they appear in fewer pictures. Income taxes cut in deeply for one point.

Loretta Young and Gloria Stewart, both of 20th Century-Fox, and Joan Blondell, of Warners, probably will make no more than three pictures a year after January 1.

Carole Lombard is appearing in only one picture this year after making \$400,000 on three last year and paying a mighty chunk of it to the government. Next year she probably will do two.

William Powell will limit his picture work to one a year in the future, but he'll probably get \$150,000 for that one, the same figure the studios are more than happy to pay to Lombard per picture.

Constance Bennett is another star who has only one picture commitment for 1938, that with Universal. She's made only three this year. Sometimes she goes more than a year without appearing before the camera. She won't take a role unless she likes it.

Another who is very picky and choosy about his roles and makes very few pictures—all of them box office successes—is Ronald Colman. Harold Lloyd made his first picture in 2 years last spring and has no plans for another in the immediate future, his studio informs this reporter.

The artist who appears the least on the screen is, of course, Charlie Chaplin. His last picture, "Modern Times," was released in 1936. There are persistent reports he plans another soon but no one knows just when.

## SEVENTH WARD NEWS

**Expect To Start Work On Skating Rink This Week**

Ice Skating Rink Will Be Sponsored By Progressive Club In Ward

Plans to begin preliminary work on an ice skating rink in the Seventh ward were announced today. The work is expected to start some time this week, according to Albert Dottle, president of the Seventh Ward Progressive club.

This rink will be sponsored by the Progressive club and will be constructed at the rear of the club rooms, 115 Montgomery avenue, in the vicinity of the present tennis court.

The city scraper will be brought to the ward this week to level the ground, and then a small outside retaining wall will be built around the site. After this is completed the City of New Castle Water company has offered to flood the field with water.

Dottle stated today that the work is being started this week in order that it will be ready to flood as soon as freezing weather arrives in this locality.

**Columbus Society Honors President**  
Members Of Auxiliary Surprise Stella Lombardo Saturday Evening

Members of the Christopher Columbus Auxiliary gave a surprise party Saturday evening in honor of their president, Stella Lombardo, in the Columbus hall on South Liberty street.

The affair was planned to show the appreciation of the auxiliary for the work done by their president during the past year and to celebrate the success of the auxiliary.

When the president entered the hall, she was greeted by the members, dressed in uniform. There were a hundred present.

Dancing was the principal diversion of the evening, and a delicious lunch was served by the committee, composed of Elizabeth DeVivo, Cecilia Perrotta, Evelyn Perrotta, Loretta Felix, Mary Zumbella, Mary Perrotta, Teresa De Piero, Mrs. Andy Masters, and Jennie Zumbella.

Mrs. Lombardo was presented with a beautiful bouquet of roses, and a black brocade silk house coat. She was also given a top airplane to carry her on her trips to New York City, to which place she will return during the coming week.

Mrs. Lombardo responded to the presentation speech and expressed her thanks for the cooperation, friendship and loyalty of the members.

The husbands were guests during the evening.

**Civic Club To Meet Wednesday**  
Will Discuss Christmas Decorations In District At Luncheon Meeting

A meeting of the Seventh Ward Civic club has been called for 12 o'clock noon, Wednesday, in the parlors of the Mahoning Methodist church.

This will be an important meeting as plans for Christmas lighting on the streets of the Seventh Ward will be discussed. A social function of the organization will also be proposed at this time.

The meeting will be in the form of a luncheon meeting, with the business session to follow the dinner, according to Ray Horchler, president.

**NEWS BRIEFS IN WARD DISTRICT**  
A visit to the Seventh Ward was made Monday morning by the city street department sweeper. This machine toured the ward streets and cleared it of leaves and accumulated dirt.

Received at the Mahoningtown Branch Library Monday afternoon was a shipment of new books. Contained in the lot were both adults and juvenile books. The books will be placed on the shelves for circulation in a few days.

Repairs made to East Clayton street will be appreciated after the next hard rainfall. Heretofore after a heavy rain, persons were unable to get across this street because the water was not carried away by the storm sewer.

State Highway Department workmen have patched a number of holes in the surface of Montgomery avenue. Amosite was used to make the street once more level and more easier to ride on.

Dear Editor:  
In fairness to the Penn Game Commission, I wish to correct a statement that appeared in error in my recent letter to The News. This was called to my attention by the Penn Game Commission, the words agreed upon a ruling that would prohibit the selling of a trap within five feet of a den or burrow was not a ruling of the commission; this is a game law and was an act of legislature.

Yesterday's meeting was opened by President H. A. McCurdy. Dr. Frank S. Neigh was the devotional leader, and Rev. J. L. Petrie, a guest from Jamesstown, N. Schaeffer, of the Princeton Memorial and Mt. Herman Presbyterian churches, were introduced to the association.

Miss Margaret Bodenstein, executive secretary of the local Red Cross, told of the parade of Red Cross juniors on Saturday and the opening of the roll call on Sunday. The ministers pledged their support. Dr. G. S. Bennett reported

on the offering received from the church people on Community Chest Sunday.  
Rev. E. G. Russell, of the program committee, presented the speaker of the day, Rev. D. H. Elwell, D. D., of the Central Presbyterian R. P. church, who delivered an interesting address on "Scotland's Answer to Totalitarianism."

A committee comprised of Revs. C. H. Heaton, Rees T. Williams and C. T. R. Yeates, was appointed to arrange for a noon luncheon November 16 in the Y. W. C. A. in the interest of Chinese relief. A Chinese speaker will be heard.  
Thanksgiving will be observed by the New Castle churches much the same as in former years. There will be union services in downtown, East Side, South Side and Mahoningtown churches.  
In two weeks the ministerium will convene again, this time to hear an address by Rev. D. J. Bladell, of the Mahoning M. E. church, on the subject, "Do We Need a Program of Religious Education?"

Bridge and 500 provided the evening's diversion, with the awards going to Mrs. Hazel Dougherty and Mrs. Clyde Beeman for the former, and Mrs. Stella Zaney and Mrs. Cora Snare for the latter.

On Monday evening, Dec. 5, the group will be guests of Mrs. Charles Ketter at her home in Wurtemburg.

## Plan Observance On Armistice Day

ELLWOOD CITY, Nov. 7.—Merchants will close and tightly lock their doors for a 15-minute period from 11 o'clock until 11:15 on Armistice Day.

When the whistle blows all merchants will clear their stores, step outside and stand at attention beside the American flag while tanks are being blown.

The division considered very seriously of closing the entire day but a check on surrounding towns including Pittsburgh, revealed that their stores would remain open all day despite the day being made a legal holiday last May by the president.

Should any ex-service men employed by the merchants wish to have the day off the local merchants agreed to gladly grant them the request.

Should the Beaver Valley Armistice festivities be held here in the next few years, the merchants have gone on record to close the entire day.

Galen Biddle, of Ellport, has been called to Kentucky by the critical illness of his mother.

ELLWOOD CITY, Nov. 8.—Mrs. C. S. Watterson and Mrs. Joseph Donnelly graciously entertained members of the King's Daughters' class of the Trinity Lutheran church last evening for the November meeting at the former's home, in North Sewickley. ## Annual Dinner At King Humbert Hall Is Well Attended

King Humbert hall was the scene of a happy event on Monday evening, when the women members of the King Humbert Auxiliary held their third annual spaghetti dinner and dance, with over 600 in attendance.

A tempting spaghetti dinner was served from 5:30 until 8:30. For this event the tables were gaily decorated with fresh flowers, donated by Mrs. Lena Cladella. The corsages worn by the committee were donated by Mrs. Rose Zoma.

During the course of dinner Josephine Mazzei, Anthony Frasso, Sam Aiello, Louis Costa and John Bertolino favored the group with a few musical selections.

Dancing began at nine o'clock, with the music furnished by a local orchestra. The vocal selections were rendered by Eleanor Fair. An added feature of the evening were the old folk dances performed by the older members of the auxiliary.

Following, Anthony Costa spoke a few words of welcome to the large group, and later distributed boxes of candy to the musical entertainers. The president of the men's lodge, Raymond Peluso, gave a brief summary of the history of the organization. Later he called upon Mrs. Mary Costa, vice president of the auxiliary, who made fitting remarks.

The president of the women's lodge, Mrs. Rose Costa, thanked the officials and committees for making the affair a most successful and enjoyable one.

In honor of the father and founder of the King Humbert auxiliary, Michael Conti, a minute of absolute silence was observed by the group.

President Raymond Peluso introduced the 20 founders of the organization and they in turn took part in the traditional march led by Carl Cladella. They continued the march while the three candles on the pink and white auxiliary cake burned out. Each founder later received a remembrance, presented by Raymond Peluso.

In conclusion door prizes were given to Mrs. Joseph Bordenaco and Mrs. Viola Pascarella.

# Debutane Season Is In Full Swing Money Pouring Out

By JANE COCHRAN  
International News Service Staff

NEW YORK, Nov. 8.—The debutane season is now in full swing with the current debutante group making their bows to New York's society. And, financially speaking, these bows are staggering ones to the family purse.

Bills totaling about \$6,500 will roll in at the first of the month for a simple yet swank ball for 500 guests. By the end of the month, when the debutante group is at the supper, the bills will only total \$5,500.

Three hundred guests may meet the debutante at a tea dance for about \$1,500 and 200 guests may admire her grace and beauty while partaking of excellent food at a dinner with the check reaching the modest sum of only \$2,000.

**Enormous Cost**  
Socially correct as these affairs may be, bills for the really important debut may amount to \$50,000 and reach a high point in the social season.

Prohibition repeal has been a boon to proud fathers as the Waldorf-Astoria and other fashionable hotels now charge no rent for the use of their ballrooms, providing that the supper served is not too simple.

A not-too-simple supper consists of a hot bouillion, lobster newberg, South American quail or breast of guinea hen, prepared with grapes, a dainty salad, and a fancy desert and the modest fee of from \$3 to \$5 a guest is charged.

Hotels, however, charge a rental of about \$300 if the supper is simple, including scrambled eggs, sausages, milk or punch.

Champagne is the preferred beverage at balls and between 20 and 30 cases at approximately \$80 a case will be consumed during the evening.

Flowers are essential as a decorative scheme with a nice display of chrysanthemums and autumn leaves enriching the florist by \$300. Orchid festoons of rare blossoms used ornamentally may better suit

the whim of the hostess and she will pay \$5,000 for use of their beauty and fragrance.

**Two Swing Bands**

Two orchestras are essential to keep the guests dancing continuously and they will furnish their music at \$500 or \$1,000 apiece.

No debut of importance unless the right people attend, so invitations must be sent at a minimum cost of \$3 per hundred. To see that only those possessing these invitations partake of the hospitality, two social secretaries will check the lists at the door for \$10 each. Arriving guests will be announced for \$10 and breakfast at 4 o'clock will be served for \$1 or \$1.50 a guest.

However important these background effects may be, it is the debutante herself who is the center of attraction and she must appear in a gown that will bring a shower of compliments . . . no small matter of expense at any courtyers.

BLACKHAWKS WIN—World champion Chicago Blackhawks start season by beating New York Americans, 6 to 1.

### Mickie Rubin Wins From Owen Wills

Seven Knockdowns, Three Technical Kayoes Registered In Arena

CHAMBERS AND FERARR WIN

Last night was punch night in The Arena, seven knockdowns having been made and three technical kayoes registered in the weekly offering of the Jefferson A. C. In the spotlight battle of the Evening's Event, Mickie Rubin, walloping South Side light-heavyweight, defeated Owen Wills, colored, 155-pounder of Pittsburgh. Rubin had Wills down for counts of seven and nine in the final round. However, the bout sounded ending the bout before he could land a lethal dose.

The Pittsburgher was on the receiving end for the greater portion of the first two chapters. Time and again he suffered agonizing left hooks to the body while he rattled and ineffectively with a right to the body which he would follow up with a right hook to Rubin's head.

Going into the third Rubin had a fat margin and carefully turned southward. However, this style apparently suited Wills who turned "side-out" and threw rights at Mickie's head which landed during the first portion of the last stanza. Rubin was wild in this round.

Finally, a left hook to Wills' body forced his knees to buckle and he staggered back. Instantly Rubin was upon him like a tiger. He threw a dozen lefts to the body and Wills went down on the ropes but was up at the count of seven.

Mickie rushed like a bull to gore a wounded man and landed another left to the body that again sent the colored lad down on the ropes. He pulled himself up at the count of nine but was on the receiving end enroute to suffering a knockout when the final bell sounded.

Rubin was attired in a beautiful red robe that was presented him by South Side admirers and last night's victory adds to those over George Segerman, Joe Buro and Joe Popeski, all of whom he has beaten by either a knockout or a technical knockout.

**Victorious Fight**  
The next bout of importance and that which capped the Five Points prize cash fight was between Jack Sover of Niles and Nick Cottage of Salem at 160 pounds. They fought as nearly like cammen as would be able to unceasing anywhere. Sover won the decision.

During the first two rounds they stood flat-footed and threw punches at the head, stomach and body. Sover had an edge. In the third Cottage covered considerably, was floored for a count of three and was taking a beating when the final gong ended the setto.

Armand Covelli, this city, lost to Oscar Wright, colored, 124, of Pittsburgh when Referee Tom McMahon sensibly stopped the bout at the end of the second round and awarded a technical knockout to Wright. Covelli suffered a long, deep gash beneath one of his eyes.

Up to the time McMahon stop-

### Basketball To Be Discussed At "Y" Tonight

Formation of a fast eight-team City Basketball league will be the topic of discussion tonight at the "Y" at 8 o'clock as Franklin R. Crisel, president of the league will preside over a session attended by the various team managers.

Mr. Crisel would like to have the following teams send their representatives to the meeting: Gersons, N. Y. A., Keystones, Polish Falcons, K. Plaskis, Wabash Bears, Union Civics, Gus' Pants, Len's, and Brown Bombers.

Workouts will start very shortly at the Arena floor. Johnny Uram, will draw up the schedule of games for the league just as soon as it is finally determined how many teams will comprise the league. Mr. Crisel would like very much to have the Falcons and K. Plaskis join the league, and make it a fast ten-team league.

The league will open the 1938-39 season shortly after the first of December, it was announced. Player lists and other important matters will be discussed at the meeting tonight and it is imperative that all managers attend.

### Keystones And Bears Prepare For Grid Game

Will Battle Sunday For City Championship, Look For Close Game

The Keystone A. C. football team under the watchful eye of Coach Tuba Fenall, is working out daily at Rotary field in preparation for the championship game this coming Sunday with the Wabash Bears of the Seventh Ward.

The location of the game is unknown as yet, although Franklin Crisel, president of the New Castle Football league, is making a strong effort to obtain the fine Union high or Scotland Lane field for the game Sunday instead of the E. & A. field in order that the fans can have bleacher seats.

**Is Ideal Field**  
The Scotland Lane field will be ideal if matters can be adjusted, otherwise the game will be played at the E. & A. field.

Coaches Blackie Adamo and Domenick are working hard with the Bears this week. The Bears will be fighting mad this week over the setback given them two weeks ago by the Keys.

The game will be a benefit for the injured players of both teams, among the injured are: Nick Ak-bent, Jake Regina and Ray Micalcetti. It is hoped that enough money can be secured to take care of the expenses of these boys.

Mr. Crisel has appointed Johnny Uram as field marshal for the game Sunday and Mr. Uram will in turn appoint several assistants to handle the crowd and to look after the collections.

### East Bowl Game Being Arranged

(International News Service)  
NEW YORK, Nov. 8.—A syndicate today commenced negotiations for an East Bowl charity football game to be held either at the Polo Grounds or the Yankee Stadium on December 10.

It is planned to make the game, pitting an eastern team against a stand-out eleven of another section, an annual affair which may in time rival the Rose Bowl.

### Overnight Sports

(International News Service)  
Sam Snead, who shot a practice round of 66, ruled a favorite as a field of 80 star golfers teed off today in quest of \$3,000 in prizes in the White Sulphur Springs, W. Va., open tourney.

A bilateral agreement between the western and Pacific coast conferences to make the Rose Bowl football game a closed series between the two organizations is reaching a status of possibility. The proposal, already acceptable to the Pacific coast, will be introduced at a meeting of Big Ten directors of athletics on December 2.

Meanwhile, in New York a syndicate was negotiating for an East Bowl charity game to be played at the Polo Grounds or Yankee Stadium on December 10. In this contest, which might rival the Rose Bowl in time, it is planned to pit an eastern team against a stand-out eleven of another section.

During the 1938 season there were more than 15,000,000 paid admissions to minor league baseball games. This represented an increase of approximately 2,000,000 over 1937.

### Rambling Around World Of Sports

Sport nuggets . . . New Castle high's "Red Hurricane" scored 60 points on home soil compared to 65 for the five opponents. There's considerable chatter about the coming Bessener-Ellwood City high game at Ellwood City November 19. To date the Cement City club is the lone undefeated and untied aggregation in Lawrence county. That New Castle Boosters basketball team is going to be a corker from what we hear. The roster sports the names of such floor wizards as John Uram, Joe Kelley, Blackie Nocera, Emil Grommes, Bus Strausbaugh, Pop Adams, Tom Carey and a few other former stars of No-Co-Hi. Lawrence county's Class B schools start their Section 20 W. P. I. A. L. battle on December 16. Bessener, East Brook, M. Jackson, Shenango, Union township, Wampum and West Wilmington comprise this loop.

Gridiron short stories . . . Saturday's week-end football parade was a honey—to the tune of better than three G's here alone. In Pittsburgh two giants fancied the "dream club" and went down for something better than \$25,000. The major unbeaten and untied list is down to Texas Tech, Notre Dame, Western Reserve, Santa Clara, Oklahoma, Texas Christian, Tennessee, Iowa State, Duke and Dartmouth. It took Rutgers exactly 69 years to pin back the ears of Princeton and 19 years for Purdue to dump Ohio State. Saturday was a day of upsets and a day of history making.

After perusing scores of Saturday's games we can't understand why collegiate coaches don't spend more time developing a field goal kicker. A team which boasts a lad who can zip the ball between the up-rights is blessed with a major asset. Alabama can thank Bradford for his 17-yard boot in the last quarter, giving the Crimson Tide a 3-0 edge over Tulane. Fordham called Sub Wilbur "One Play" Stanton to try his luck from the 32. His toe did it over St. Mary's, 3-0. Manlio Boverini left the substitutes bench long enough to lift a field goal which gave Manhattan a 3-0 margin over N. C. State.

Joe Pasqua, S. M. U. sub, pulled the prize of the day, splitting the up-rights from the 45, giving the Mustangs a 10-7 margin over Texas A. and M., as the clock clicked off the final 30 seconds. In the last 50 seconds Jack Schuchler, Rice's fullback, sailed one between the up-rights for a 3-0 victory over Arkansas. Bill "Never Miss" Daddio got his weekly field goal against Carnegie Tech to give the Pitties a 10-7 edge which they held for a while. Springfield College thumped Baldwin-Wallace, 9-6, thanks to Joe Baruno, a guard. Texas took an early lead through this medium. J. C. Smith creaked out a 3-0 win against Bluefield Inst. with a pretty field goal. Other successful boots from the field were recorded by Haskell, Wayne U. and Bowling Green. Collegiate pilots will no doubt realize the importance of a good field goal kicker and add this mode of attack to the repertoire of plays.

We did fair and middlin in our weekly game of "pick and pray." Those flock of field goals split open our percentage. For the season we called the turn 194 times in 241 battles, excluding 13 ties. Our batting average is still close to the 800 mark. . . . Oh, yes, about Saturday—31 out of 41. Selah! Selah!

### Notre Dame Is Standout Team

Of Entire Unbeaten List Irish Standout Prominently, Play Tough Card

DARTMOUTH IS BEST IN LAST

By LAWTON CARVER  
International News Service Sports Editor

NEW YORK, Nov. 8.—Casting about today for some place to pin vagrant hopes, anticipation and an occasional buck or two, eastern football circles found no difficulty in agreeing that, with the dissipation of the Pittsburgh myth, this section has nothing of consequence to offer in the national football championship race. Thus were all eyes levelled finally in the general direction of the mid-west, where Notre Dame's Ramblers are rambling and rolling again as of old.

Gradually, the thing is shaping up again as another Notre Dame year after a long drought, although few, if any, will come right out and say it, their reluctance being based on the fact that the Ramblers still must hurdle Minnesota, Northwestern and Southern California. From the way things have been going for other major teams, the Ramblers have no real assurance that they could hurdle even the four Marx Brothers.

**Many Strong Teams**  
Upsets have been so numerous and so utterly astounding week after week that so eminent an authority as Coach Lou Little of Columbia publicly has characterized this season as the greatest in history. There are many strong teams, but also many so close to the very top that the latter have been making a practice of knocking over the leaders.

So, inasmuch as Minnesota, Northwestern and Southern California each has been beaten only one time, it would cause no great revelations if any one of this trio should upset the Ramblers and what to date is a perfect record that includes victories over Kansas, Georgia Tech, Illinois, Carnegie Tech, Army and Navy.

While the Ramblers make up only one of more than a score of eleven still unbeaten and untied, their position is enhanced—until further notice—by the fact that such contenders as Dartmouth, Tennessee, Texas Christian and Duke are playing comparatively restricted schedules. They are not playing setups exactly, but neither are they taking on the toughest.

**CAMEL CHASES GIRL**  
After cycling 1,300 miles in 25 days, a twenty-two-year-old Vere Harding has arrived in Perth, West Australia. During her trip she was chased by a camel, nearly shot for a kangaroo, received a marriage proposal, and was knocked unconscious.

**LENS TO DRILL**  
Lens basketball team will practice this evening at six o'clock on The Arena floor. "Gabby" DeCaprio will manage the quintet. Lens have joined the city basketball circuit.

Anybody can plan a perfect system of government. The difficulty is in making it work perfectly with imperfect parts.

### Rose Bowl May Ignore East In Picking Teams

Believe Pacific And Western Conferences Will Monopolize Selections

PLAN MEETING WITH MUCH FAVOR

By FRANCIS J. POWERS  
International News Service Sports Writer

CHICAGO, Nov. 2.—A bilateral agreement between the western and Pacific coast conferences to make the Rose Bowl football game a closed series between the two organizations, is reaching a status of probability.

The proposal, already acceptable to the Pacific coast, will be introduced at the meeting of Big Ten directors of athletics here, December 2, and in turn submitted to the faculty conference committee, which has the final vote. A close but favorable vote is anticipated although play may not start until 1940.

**Work On Agreement**  
The two conferences have been definitely working toward an agreement on the Rose Bowl for several years. The Pacific coast is in close agreement with the Big Ten on eligibility rules and each year there has been an increasing exchange of football, basketball, baseball, track, tennis, and golf matches in season.

The fall there have been four inter-conference football games; several basketball games are scheduled for this winter and the track meet is an annual fixture.

The Pacific coast is keen for such an agreement since it automatically would eliminate the confusion in picking the opponent for its championship from an increasingly small number of eligibles. Although the plan would rule out eastern and southern teams the annual appearance of the Big Ten champion in Southern California, where twenty-five per cent of the population had its genesis in the midwest, would lend a new pitch of interest to the game.

The fact that the Rose Bowl game is managed by the Pacific coast conference has done much to eliminate objections of the Big Ten to that particular post season contest. Further the even balance of competition in the western conference, precisely the probability of any one school monopolizing Rose Bowl appearances.

**Look At Finances**  
Western conference leaders are not unmindful of the financial returns of the Rose Bowl game, that annually approximate a gross of \$100,000. Since most of the Big Ten schools have indebtedness of stadiums, field houses or other athletic properties, an occasional share of the Rose Bowl game would be a convenient lift.

A closed Rose Bowl game would be an advantage to the sugar, cotton and orange bowls, since they then would be able to secure the champions of other sections for their winter classics. All three of the Southern games have been retarded by inability to always secure outstanding teams but with the Pasadena gates closed could present attractions that would increase both the prestige and gates of their shows.

**DIAMOND CUTTERS BUSY**  
Optimism over coming world prosperity is indicated by the return to work of 200 diamond cutters in Johannesburg, South Africa, center of world diamond mining. They expect to handle at least \$2,500,000 worth of diamonds in the next six months.

Miss Poorly: "They say that getting plump is just a routine matter." Miss Slimly: "Yes, all you have to do is to fill out a form."

Surly people were meant to live longer. No other animal wears out by the time it develops sense enough to live.

**Jesse Moore Is High In Shoot**  
Jesse Moore with a 198 string led the New Castle Rifle Club last night in its practice shoot at the Cathedral range. Second high went to Leo W. Hill with a 191 string.

There will be a match shoot in the Penn-Ohio rifle league this week for the local title. It will be announced. The results: Jesse Moore 193, Hill 191, Waddington 186, Hockenberry 189, Gardner 189, Ferver 178, Patterson 174, Cooper 174, Kilbreath 171, Blythe 166, Gillich 165, McKeown 164, Eleanor Crawford 160.

**CASTLETON'S WIN GAME**  
The Castleton Hotel football team led by Perry McCormick and Joe McConahy, topped the Victor "Wildcats" 6 to 0 at Colonial Field in their annual classic of the year. McCormick reed 40 yards for the lone tally of the gruelling contest. Next Sunday the Hotelmen will play the Rose Bowl team at Colonial Field at 2:30 o'clock.

Robert M. "Bobbie" Mills, ticket manager of the New Castle High school football team announced today that tickets for the Martins Ferry High and New Castle game at Martins Ferry on this coming Saturday, have been placed on sale at the high school and Sporting Goods store.

The following ticket prices prevail: The men pay 50 cents, the women and students pay 25 cents. There will not be any reserved seats sold for this game.

A section will be reserved for the New Castle High fans and students on the far side of the field, it was announced, just as was the case two years ago.

All tickets at Senior High will have to be purchased by 5 o'clock Thursday evening, as there is no school on Friday (Armistice Day) and the high school will not be open. Mr. Mills urges the students to get their tickets early this week.

**Penn State Makes Ready For Penn**  
(Special To The News)  
STATE COLLEGE, Pa., Nov. 8.—Following a tradition that Philadelphia bears play their best game of the season on Franklin field, Coach Bob Higgins has announced that Harry Harrison and Tony Giannantonio, senior backs, would be in the starting lineup for Penn State when the Lions meet Pennsylvania this Saturday.

Harrison, who will captain the Blue and White against the Quakers, has borne out this legend in both of his previous appearances against the Red and Blue. Two seasons back he ran a kickoff 94 yards for a touchdown, and last year he tossed a forward pass to Windy Wear for the only score of the game.

The former West Philadelphia and Brown Prep athlete will start either at quarterback or right half-back taking the place of Chuck Peters or Craig White, both sophomores who ordinarily are in the lineup at the kickoff.

### New Castle To Try Hard For Win Saturday

Will Have Best Possible Lineup Ready To Meet Martins Ferry High

New Castle High "Red Hurricane" football team will make a determined bid for victory Saturday at Martins Ferry, Ohio to atone for the setback given them the last time a red and black clad player put a cleat mark on the Ohio terra firma, which was two years ago.

Head Coach Phil Bridenbaugh is drilling the locals here this week in preparation for the game at the Ferry. With Gender still out of commission, Bridenbaugh will use Larry "Suck" Roberts and probably Burris, Noga or Sowinski at the halfback posts, with Lauro at fullback and Chuck Cialella at quarter.

**Want Revenge**  
Martins Ferry will be after a little revenge also, for that unceremonious 27 to 7 set back given them last year by the Bridenbaugh machine at Taggart Stadium. Little is known of the power of the "Feries" this year, outside of the fact that they have licked Allegheny of Pittsburgh and East Liverpool among others and have lost to Belleaire 20 to 2, and tied Wheeling High 0-0 in a mud battle.

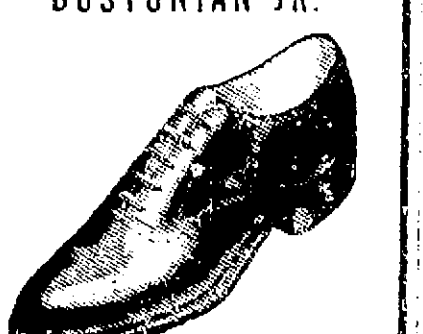

New Castle leads in the modern series between the two teams with two wins and one defeat. New Castle won here in 1936, lost in 1937 at Ferry and won here last year.

**Will Ride Train**  
The New Castle High team will ride the railfairs this week, being scheduled to board the Pennsylvania railroad football special train at the west side depot at 9:30 o'clock Saturday morning. The team will be led on the train enroute to the Ohio River town.

Faculty Manager Norman Scoots Nelson will be in charge of the New Castle football party on the special train. In the party will be Head Coach Phil Bridenbaugh, and his capable assistants, William "Bill" Klee, George "Gig" Thomas and Paul Cuba. There will be about 30 in the New Castle High special football team coach on board the train.
